A Guide to Statistical Methods and to the Pertinent Literature / Literatur zur Angewandten Statistik Lothar Sachs, 2012-12-06 Readers of my books students and scientists often ask for special references not commonly found in introductory or intermediate books on statistics From the titles and contents of 1449 key papers and books which are listed and numbered in Section 5 I have selected keywords and subject headings and arranged them alphabetically together with the numbers of pertinent references in Section 3 Number 1153 for instance denotes my book Applied Statistics It contains a bibliographical section on pages 568 to 641 Supplementary material is displayed in this small bibliographical guide It also complements well known textbooks of Box Hunter and Hunter No 121 Dixon and Massey No 286 Snedecor and Cochran No 1238 and many recent competitors Since the methodology of statistics is expanding rapidly many methods are not considered at all or only introduced in the basic textbooks of statistics There is a need for intermediate statistical methods concerned with increasingly complicated applications of statistics to actual research situations Here the specification of terms helps to find some sources Since the references vary considerably in length and content the number of culled or extracted terms per referenced page varies even more as does also their degree of specialization however in most cases an intermediate statistical level is maintained
