Threads Ohio's Art Quilt Revolution reveals for the first time the remarkable role Ohio artists, curators, institutions, and

organizations have played in the evolution of today's international art quilt movement. Against the backdrop of America's counterculture and civil rights movements, author Gayle A. Pritchard's compelling narrative threads its way through the emergence of the art quilt from artists working in isolation to the explosive big bang of the first Quilt National and its inevitable reverberations. Pritchard provides a fascinating and personal glimpse into the private world of these unique artists through in-depth interviews, rare photographs, and abundant quilt illustrations.

A Constellation for Quilters Carol LaBranche, 1990-05

"Women and the Material Culture of Needlework and Textiles, 1750-1950" Maureen Daly Goggin, 2017-07-05

Rejecting traditional notions of what constitutes art, this book brings together essays on a variety of fiber arts to recoup women's artistic practices by redefining what counts as art. Although scholars over the last twenty years have turned their attention to fiber arts, redefining the conditions, practices, and products as art, there is still much work to be done to deconstruct the stubborn patriarchal art/craft binary. With essays on a range of fiber art practices including embroidery, knitting, crocheting, machine stitching, rug making, weaving, and quilting, this collection contributes to the ongoing scholarly redefinition of women's relationship to creative activity. Focusing on women as producers of cultural products and creators of social value, the contributors treat women as active subjects and problematize their material practices and artifacts in the complex world of textiles. Each essay also examines the ways in which needlework both performs gender and, in turn, constructs gender. Moreover, in concentrating on and theorizing material practices of textiles, these essays reorient the study of fiber arts towards a focus on process—the making of the object, including the conditions under which it was made, by whom, and for what purpose, as a way to rethink the fiber arts as social praxis.

Quilting Patchwork and Applique Caroline Crabtree, Christine Shaw, 2007-09-25

A comprehensive and invaluable survey of these universally appealing textiles for anyone interested in art, craft, decorative objects, and interior design. Native American Seminole clothing, Dutch quilted petticoats, Swedish wedding cushions, African American narrative quilts, Italian appliquéd furnishings, Eastern European braided waistcoats, nineteenth-century American block patterns, traditional English quilts, Korean *pojagi*, Turkish strip patchwork, prayer rugs, Pacific *tivaivai* quilts, Indian appliqué, Thai baby-carrying cloths, Ghanaian flags, French *trapunto*, Japanese *sashiko*, and Spanish inlay appliqué saddle trappings—the traditional crafts of quilting, patchwork, and appliqué are universal, and their uses are astonishing. This book is the first worldwide survey of these wonderfully decorative techniques: quilting, in which layers of fabric are stitched together; patchwork, in which old or new fabric pieces are cut and re-stitched to produce a new textile; and appliqué, in which old or new fabric pieces adorn another fabric. It is organized in three main sections: Materials, from wool, flax, linen, cotton, and silk to the manufacture of synthetics; Uses, from household items and clothing through the ages to ritual and ceremonial objects, such as wedding quilts and banners; and Construction, with detailed explanations of the many techniques found around the world. The book also includes advice on how to care for your objects, a guide to collections around the world, a detailed glossary, and a bibliography. Caroline Crabtree, trained as an embroiderer in
