Dismantling the Racism Machine Karen Gaffney, 2017-11-13 While scholars have been developing valuable research on race and racism for decades this work does not often reach the beginning college student or the general public who rarely learn a basic history of race and racism If we are to dismantle systemic racism and create a more just society people need a place to begin This accessible introductory and interdisciplinary guide can be one such place Grounded in critical race theory this book uses the metaphor of the Racism Machine to highlight that race is a social construct and that racism is a system of oppression based on invented racial categories It debunks the false ideology that race is biological As a manual this book presents clear instructions for understanding the history of race including whiteness starting in colonial America where the elite created a hierarchy of racial categories to maintain their power through a divide and conquer strategy As a toolbox this book provides a variety of specific action steps that readers can take once they have developed a foundational understanding of the history of white

Nelson,1992-01-02 Dana Nelson provides a study of the ways in which Anglo American authors constructed race in their works from the time of the first British colonists through the period of the Civil War She focuses on some eleven texts ranging from widely known to little considered that deal with the relations among Native African and Anglo Americans and places her readings in the historical social and material contexts of an evolving U S colonialism and internal imperialism Nelson shows how a novel such as *The Last of the Mohicans* sought to reify the Anglo historical past and simultaneously suggested strategies that would serve Anglo Americans against Native Americans as the frontier pushed farther west Concluding her work with a reading of Harriet Jacobs s *Incidents in the Life of a Slave Girl*

Nelson shows how that text undercuts the racist structures of the pre Civil War period by posing a revised model of sympathy that authorizes alternative cultural perspectives and requires Anglo Americans to question their own involvement with racism

Reading Postcolonial Literature Hayley G. Toth, 2025-03-10 An Open Access edition is available thanks to the kind sponsorship of the libraries participating in the Jisc Open Access Community Framework OpenUP initiative Debates about reading in postcolonial studies rarely discuss non professional readers except to secure the authority of professional reading practices In Reading Postcolonial Literature Hayley G Toth places non professional reading practices in dialogue with received academic wisdom to debunk common sense assumptions about non professional readers as Western or neocolonial consumers Drawing on reading practices recorded in academic books journal articles and on online book reviewing platforms like Amazon and Goodreads Toth draws attention to important continuities between professional and non professional practices of reading postcolonial literature At the same time she highlights that non professionals often have little desire to emulate the practices of professional postcolonial critics Precisely by not adopting the established protocols and methods of postcolonial studies non professional readers call attention to the limits of dominant approaches to reading in the discipline Across four chapters Toth examines the relationship between reading and identity during the Rushdie affair the difference between reading and address the challenges posed by difficult texts and the legitimacy of non understanding and the reception of popular texts primarily read by non professional audiences Reading Postcolonial Literature demonstrates that reception matters in any claims we make about the value of reading postcolonial literature and offers new ways forward for the practice study and teaching of reading in the discipline

The Racist Murder of Stephen Lawrence Simon Cottle, 2004-10-30 Simon Cottle examines how the media coverage of the racist murder of an 18 year old black student prompted British society to re examine questions of in justice cultural identity and racism

Beyond the White Negro Kimberly Chabot Davis, 2014-07-15 Critics often characterize white consumption of African American culture as a form of theft that echoes the fantasies of 1950s era bohemians or White Negroes who romanticized black culture as anarchic and sexually potent In Beyond the White Negro Kimberly Chabot Davis claims such a view fails to describe the varied politics of racial crossover in the past fifteen years Davis analyzes how white engagement with African American novels film narratives and hip hop can help form anti racist attitudes that may catalyze social change and racial justice Though acknowledging past failures to establish cross racial empathy she focuses on examples that show avenues for future progress and change Her study of ethnographic data from book clubs and college classrooms shows how engagement with African American culture and pedagogical support can lead to the kinds of white self examination that make empathy possible The result is a groundbreaking text that challenges the trend of focusing on society s failures in achieving cross racial empathy and instead explores possible avenues for change
