

Time Out Brubels

IM Harris

Time Out Brubels:

The Brunels Anthony Burton, 2022-04-13 Isambard Kingdom Brunel has always been regarded as one of Britain's great heroes and an engineering genius. His father Marc Brunel has not received the same degree of adulation but this book will show just how important a part Marc played in his son's works and will also look at his own great achievements. Marc Brunel arrived in Britain as a refugee from revolutionary France after a short time working in America. He was a pioneer of mass production technology when he invented machines for making blocks for sailing ships. He had other inventions to his name but his greatest achievement was in constructing the very first tunnel under the Thames. Isambard spent his early years working for and with his father who not only encouraged him but throughout his career he was also able to offer practical help. The famous viaduct that carried the Great Western Railway over the Thames at Maidenhead for example was based on an earlier design of Marc's. Isambard's greatest achievements were in revolutionizing the shipping industry where he was able to draw on his father's experience when he served in the navy. The book not only looks at the successes of two great engineers but also their failures. Primarily however it is a celebration of two extraordinary men and their amazing achievements.

The Brunels, Father and Son Celia Brunel James Noble, 1938 **Pictures of the Past** Francis H. Grundy, 1879 Engineering, 1874 *Mail and Passenger Steamships of the Nineteenth Century* Arthur George Holdsworth Macpherson, Harry Parker, Frank Charles Bowen, 1928 **Herapath's Railway Magazine, Commercial Journal, and Scientific Review**, 1899 **The Quarterly Review**, 1862 *English Mechanic and Mirror of Science*, 1873
