**Peasant Pedlars and Professional Traders** Ulrich Mai, Helmut Buchholt, 1987 Trading in the rural areas of developing countries provides a valuable source of cash income especially for small and landless peasants In a case study of the village of Kakas in the province of North Sulawesi Indonesia the authors depict the colourful market scene of a village pasar the selling and buying strategies of traders and customers and the characteristics of supply and demand They also shed light on the often neglected non economic aspects of the pasar such as its value for local communication and its role in the formation of a new sense of local identity and solidarity By means of studies of trader households this book also scrutinizes how rural households combine petty trade with other income generating activities such as cash cropping subsistence production wage labour and even work as a civil servant The authors also show how petty trade though highly efficient may well be an indicator of underdevelopment

Chapter 1 To anyone who glanced casually inside the detention room the young man sitting there did not seem very formidable In height he might have been a little above average but not enough to make him noticeable His brown hair was cropped conservatively his unlined boy s face was not one to be remembered unless one was observant enough to note those light gray eyes and catch a chilling measuring expression showing now and then for an instant in their depths Neatly and inconspicuously dressed in this last quarter of the twentieth century his like was to be found on any street of the city ten floors below to all outward appearances But that other person under the protective coloring so assiduously cultivated could touch heights of encased and controlled fury which Murdock himself did not understand and was only just learning to use as a weapon against a world he had always found hostile He was aware though he gave no sign of it that a guard was watching

him The cop on duty was an old hand he probably expected some reaction other than passive acceptance from the prisoner But he was not going to get it The law had Ross sewed up tight this time Why didn t they get about the business of shipping him off Why had he had that afternoon session with the skull thumper Ross had been on the defensive then and he had not liked it He had given to the other s questions all the attention his shrewd mind could muster but a faint very faint apprehension still clung to the memory of that meeting The Time Traders Andre Alice Norton,2022-11-11 Intelligence agents have uncovered something beyond belief but the evidence is incontrovertible the USA s greatest adversary is sending its own agents back through time And someone or something is presenting them with technologies and weapons far beyond our most advanced science We have only one option create time transfer technology ourselves find the opposition s ancient source and take it down *Banking* ,1921 The Accountant ,1913 **The Law Times Reports of Cases Decided in the House of Lords, the Privy Council, the Court of Appeal ...
