term the drinking curriculum to describe how a paradoxical set of cultural lessons about childhood are fueled by adult anxieties and preoccupations. By analyzing popular and widely accessible texts in visual culture—temperance tracts, cartoons, film advertisements, and public service announcements—Marshall demonstrates how youth are targets of mixed messages about intoxication. Those messages range from the overtly violent to the humorous, the moralistic to the profane. Offering a critical and at times irreverent analysis of dominant protectionist paradigms that sanctify childhood as implicitly innocent, *The Drinking Curriculum* centers the graphic narratives our culture uses to teach about alcohol, the roots of these pictorial tales in the nineteenth century, and the discursive hangover we nurse into the twenty-first.
