## **Top Fuel Dragster:**

**Tales from a Top Fuel Dragster** Shirley Muldowney, 2013-11-01 Shirley Muldowney not only broke the gender barrier in the National Hot Rod Association in the 1970s but she also completely rewrote the record books in Top Fuel Eliminator drag racing's quickest and fastest category. She was the first woman to receive a Top Fuel license from the NHRA. Between 1977 and 1982 Muldowney won three NHRA Top Fuel championships, the first female ever to win a title in any professional motorsport. She won the prestigious NHRA US Nationals in 1982 and was recently inducted into the International Motorsports Hall of Fame. By the time she retired at the end of the 2003 season, Muldowney had become one of the most recognized and celebrated race car drivers in history. *Tales from a Top Fuel Dragster* is an unabashed collection of stories, anecdotes, and opinions in Muldowney's own unvarnished style of storytelling, laced with her straightforward, take-no-prisoners approach. She has spent her entire lifetime telling it like it is, standing up to the establishment and refusing to do anything other than in her own way. Politically correct? Hardly. Readers are encouraged to strap themselves in when she shares her many tales. It's the whole truth and nothing but the truth, according to the legendary Shirley Muldowney. **Top Fuel Dragsters** Denny Von Finn, 2007-08-01 Top Fuel drivers and their cars race one on one in a straight line. Drag racing is one of the most popular forms of auto racing, and Top Fuel dragsters are the fastest dragsters around. Young readers will explore the technology that enables a Top Fuel dragster to travel faster than 330 miles per hour. **Top Fuel Dragster** Robert Genat, Describes top fuel dragsters and their sport. [Top Fuel Wormhole](#) Cole Coonce, 2006 Volume 1 of the Cole Coonce drag strip reader. Churned out between races while sitting in a trackside porta potty, Coonce's collection of incendiary drag strip journalism was written during his days at Super Stock Drag Illustrated, Full Throttle News, and Nitronic Research between his stints as a guitar player in Braindead Soundmachine and his return to show business as Angelyne's fluffer in Studio City, California. Its 256 pages of ack-ack includes *Viva La Nitro* and *Who's Afraid of Arley Langlo*. **Top Fuel Dragsters: Drag Racing's Rear-Engine Revolution** Steve Reyes, 2016 In general terms, drag racing is the fastest form of motor racing within drag racing. Top Fuel is the fastest of the classes. Top Fuel has always been the leading class in terms of technology, cost, excitement, and speed. Over the years, technology has changed greatly. What started out as a flathead engine, four wheels, frame rails, and a steering wheel has morphed into technological wonders producing horsepower figures in the thousands and running supercharged nitromethane cars over the quarter mile in the 4-second range. Industry legend and veteran journalist Steve Reyes was there through all the technological changes; he has the photos, anecdotes, quotes, and tales of the era. He discusses it all, including the experimentation that led to incredibly exciting racing and wild mishaps. Join him in the pages of this book where he shares all the stories of this incredible racing era. *Top Fuel Drag Racing* Martin Hintz, Kate Hintz, 1996 Describes top fuel dragsters and their sport, includes a history.
