

Lecture Notes on Differential Equations II

ALI H. HAKAMI

Professor of Mathematics

These notes are based on my earlier lectures for **Math 332 (Differential Equations II)** at [Jazan University](#). The material originated from a set of notes I initially prepared for **Math 363** at [King Khalid University](#) during the **Spring 2013** semester. They are currently available under the title: [Differential Equations II Math 332 JU.pdf](#).

These notes aim to provide a concise but rigorous presentation of key topics in second-level differential equations. They include essential definitions, theorems, and, where possible, complete proofs. While intended to support students' learning, they are meant to supplement-not replace-standard textbooks. Students are strongly encouraged to consult the recommended references [**3, 8, 16**] and additional resources such as [**1, 2, 4–7, 9–14**], many of which are accessible through the university library.
