Leadership for Change and School Reform Kathryn Riley, Karen Seashore Louis, 2013-01-11 School reform is a top priority for governments today This timely and challenging book edited by leading international researchers Kathryn Riley and Karen Seashore Louis offers a rich comparative perspective on leadership for change and school reform Contributors from North America Europe and Australia demonstrate how school leadership is influenced by global pressures differing national and state contexts and local concerns They illustrate the limitations of reform initiatives which focus on school leaders to the exclusion of the many other organisations which affect school such as national and local governments professional associations and school communities This book raises some

important questions such as How can school leaders create intelligent thinking schools How can leadership and learning be linked together What are the characteristics of effective local education authorities and school districts What is the role of teacher organisations in educational reform and change What happens if businesses teachers parents and local communities have different views of what makes a good school The text illustrates the ways in which leadership is rooted in learning and identifies new directions for school leadership It challenges conventional notions of leadership offering an expanded view which sees leadership just as an individual role based function but as a network of relationships among people structures and cultures This lively and provocative book should be read by all those interested in education reform Philosophy@Work Anders Indset,2022-08-18 For decades business management teams have learned lessons and absorbed wisdom from an array of disciplines psychology sociology biology and more but philosophy and the wisdom it embodies has long been overlooked World renowned business philosopher Anders Indset wants to correct this oversight through his mission to introduce practical philosophy into every organisation Intended as a source of inspiration Philosophy Work explores the integration of philosophical tenets into the business landscape and how they can be applied to personal development the art of leadership and coping with the forces of change Within its pages are reflections from twenty seven of the world s leading business thinkers including Dorie Clark Erica Dhawan Mark Esposito Stew Friedman Marshall Goldsmith Anil K Gupta Gianpiero Petriglieri Haiyan Wang and many more Through articles interviews and essays they share their insights into the profound impact philosophy can have on business This is a starting point to a world of practical applied philosophy a first glimpse into the beginning of a new era **Leadership and Politics** Bryan D.
