Deafness, Gesture and Sign Language in the 18th Century French Philosophy Josef

Fulka,2020-04-15 The book represents a historical overview of the way the topic of gesture and sign language has been treated in the 18th century French philosophy The texts treated are grouped into several categories based on the view they present of deafness and gesture While some of those texts obviously view deafness and sign language in negative terms i e as deficiency others present deafness essentially as difference i e as a set of competences that might provide some insights into how spoken language works One of the arguments of the book is that these two views of deafness and sign language still represent two dominant paradigms present in the current debates on the issue The aim of the book therefore is not only to provide a historical overview but to trace what might be called a history of the present

The Child Savage, 1890-2010

Elisabeth Wesseling,2016-12-05 Taking up the understudied relationship between the cultural history of childhood and media studies this volume traces twentieth century migrations of the child savage analogy from colonial into postcolonial discourse across a wide range of old and new media Older and newer media such as films textbooks children s literature periodicals comic strips children s radio and toys are deeply implicated in each other through ongoing remediation meaning that they continually mimic absorb and transform each other s representational formats stylistic features and content Media theory thus confronts the cultural history of childhood with the challenge of re thinking change in childhood imaginaries as transformation through repetition patterns rather than as rise shine decline sequences This volume takes up this challenge demonstrating that one historical epoch may well accommodate diverging childhood repertoires which are recycled again and again as they are played out across a whole gamut of different media formats in the course of time

Savage Girls and

Wild Boys Michael Newton,2014-04-22 Savage Girls and Wild Boys is a fascinating history of extraordinary children brought up by animals raised in the wilderness or locked up for long years in solitary confinement Wild or feral children have fascinated us through the centuries and continue to do so today In a haunting and hugely readable study Michael Newton deftly investigates a number of infamous cases He looks at Peter the Wild Boy who gripped the attention of Swift and Defoe and at Victor of Aveyron who roamed wild in the forests of revolutionary France He tells the story of a savage girl lost on the streets of Paris of two children brought up by wolves in the jungles of India and of a Los Angeles girl who emerged from thirteen years locked in a room to international celebrity He describes too a boy brought up among monkeys in Uganda and in Moscow the child found living with a pack of wild dogs Savage Girls and Wild Boys examines the lives of these children and of the adults who rescued them looked after them educated or abused them How can we explain the mixture of disgust and envy that such children can provoke And what can they teach us about our notions of education civilization and man s true nature

Discourses on Nations and Identities

Daniel Syrový,2021-01-18 The third volume of the collected papers of the ICLA congress The Many Languages of Comparative Literature includes contributions that focus on the interplay

between concepts of nation national languages and individual as well as collective identities Because all literary communication happens within different kinds of power structures linguistic economic political it often results in fascinating forms of hybridity In the first of four thematic chapters the papers investigate some of the ways in which discourses can establish modes of thinking or how discourses are in turn controlled by active linguistic interventions whether in the context of the patriarchy war colonialism or political factions The second thematic block is predominantly concerned with hybridity as an aspect of modern cultural identity and the cultural and linguistic dimensions of domestic life and in society at large Closely related a third series of papers focuses on writers and texts analysed from the vantage points of exile and exophony as well as theoretical contributions to issues of terminology and what it means to talk about transcultural phenomena Finally a group of papers sheds light on more overtly violent power structures mechanisms of exclusion Totalitarianism torture and censorship but also resistance to these forms of oppression In addition to these chapters the volume also collects a number of thematically related group sections from the ICLA congress preserving their original context
