Freedom to Play Norah L. Lewis, 2010-09-29 When we were children we made our own fun is a frequent comment from those who were children in pre television times But what games activities and amusements did children enjoy prior to the mid 1950s Recollections of older Canadians selections from writings by Canadian authors and letters written to the children s pages of agricultural publications indicate that for most children play was then as now an essential part of childhood Through play youngsters developed the physical mental and emotional skills that helped them cope with life and taught them to get along with other children In both rural and urban settings children were generally free to explore their environment They were sent outdoors to play by both parents and teachers Their games were generally self organized and physically active with domestic animals acting as important companions and playmates Children frequently made their own toys and equipment and since playing rather than winning was important most children were included in games Special days holidays and organizations for children and youth provided welcome breaks from daily routines Their lives were busy but there was always time for play always time for fun Norah Lewis has provided an entertaining view of the toys games and activities in Canada and pre confederate Newfoundland from approximately 1900 through 1955 Her book will be of interest to historians educators and sociologists as well as anyone who lived through or wants to know more about those early years in Canada and the games children used to play

Going Around the Bend on the QE2 Nicholas Walker, 2018-02-12 Written by a bestselling author this is the hilarious story of him having a nervous breakdown and running away around the world on the QE2 Unbelievable but absolutely true the author s sensitive mental state gives him a different slant on world travel and the millionaires he mixes with A truly different travel book which will have you laughing on every page This is the true story of how the author cured a nervous breakdown by taking a world cruise on The Queen Elizabeth II It is a peep into the luxury lifestyle of the very rich from the somewhat sardonic viewpoint of someone who is not quite sane We visit 40 countries and each one is treated to the author s observations which are nearly always humorous and written by someone who s fragile mental state causes him to throw all caution to the winds But more than that Nick isn t your conventional world traveller he gets arrested in New York and undergoes an intimate body search he fights off three armed muggers in Jamaica falls out with Australian customs officers has a motor bike accident in Bali is attacked by two old men in The Taj Mahal and is thrown out of Vietnam The book though is more about his life aboard the QE2 his love affairs his growing relationship with the staff and their intimate closeted lifestyle the disastrous staff concert that ends up in an all out fight the excesses of the super rich passengers and the bizarre situations that only happen aboard such as the night where he is trapped on the dance floor with the three women he has been dating All in all it is the story of a man making his way back to sanity until he is finally deposited back on the quay at Southampton where he started only now he is penniless and has just been informed that everything he owns in the world has been thrown overboard into the sea The hilarious follow up is now available Not Quite
