Sumner Today. Selected Essays of W.G. Sumner, with Comments by American Leaders. Edited by Maurice R. Davie. [With a Portrait.] William Graham SUMNER,Maurice Rea Davie,1940 *Economists and Higher Learning in the Nineteenth Century* William J. Barber,1993-01-01 Many economists who struggled to establish a secure place for their discipline in American universities in the nineteenth century made significant contributions to reshaping American academic life in general Yet they were often at war among themselves as they sought to define the mission and methods of economics in an era of social and intellectual ferment This volume represents the contribution of American scholars to a multinational research project on the institutionalization of political economy in European Japanese and North American universities It includes case studies of divergent experiences of fourteen institutions that figured prominently in the molding of American culture William Mary The University of Virginia South Carolina College Brown Harvard Yale Columbia Johns Hopkins The University of Pennsylvania The University of Chicago The University of California Stanford The University of Wisconsin and the Massachusetts Institute of Technology These are supplemented in an essay by A W Coats on the turbulent early decades of the American Economic Association In this new introduction Barber takes note of the fact that in a somewhat different context and with a modified rhetoric the same issues present themselves today as they did one hundred years earlier And this in turn introduces some troubling concerns about just what sort of science economics is and was The volume as a whole can be read as reflections on the troubled status of the discipline of economics as it now exists in American university and research contexts It provides fresh perspectives on the development of social science and economic thought and on the history of higher education in the United States As such it will be of very great interest to professional economists students of higher education and those for whom the life of American ideas holds a central place **The Black Diamond** ,1925 [The Pomona College Quarterly Magazine](#) ,1917 **Grain World** ,1911 *Proceedings of the Massachusetts Historical Society* Massachusetts Historical Society,1930 **The New Yorker** Harold Wallace Ross,William Shawn,Tina Brown,David Remnick,Katharine Sergeant Angell White,Rea Irvin,Roger Angell,1928 **The Roots of American Bureaucracy, 1830-1900** William Edward Nelson,1982 William Nelson reinterprets nineteenth century American history as a struggle between majority rule and minority rights From this fresh point of view he traces the roots of American bureaucracy Nelson analyzes the majority minority tension form the Jacksonian revolution of strong party rule and majoritarian decisionmaking through the abolitionist crisis the Civil War Reconstruction and the rise of industrialism He shows that ultimately political and legal pluralism emerged to protect minority and individual rights The instrument of a professional bureaucracy with neutral political standards was fashioned Personalities as seemingly disparate as Henry Adams John W Burgess Charles W Eliot Christopher Columbus Langdell and Theodore Roosevelt all contributed in an effort to stop the centralizing impact of democracy Nelson s new way of thinking about the period puts into different perspective the actions of the three branches of

federal government its courts and administrative agencies and even the states All shifted toward bureaucratic or neutral standards reliance on experts and professionalization Legal thought changed from an instrumental to a formal reasoning style civil service tamped down partisan politics and in Congress seniority and the committee system check democratic tendencies **Fourth Estate** ,1924 Forecast ,1920 **Letters** Henry Adams,1930 **Letters of Henry Adams (1858-1891)** Henry Adams,1930
