The Frontier David Harry Miller, 1979      **The Frontier** William W. Savage, 1979      *The Frontier* David Harry Miller, 1938-  
Miller, Jerome O. Steffen, 1977      **The Frontier** William W. Savage, Stephen I. Thompson, 1979      **Comparing Cowboys  
and Frontiers** Richard W. Slatta, 1997

Historians of the American West perhaps inspired by NAFTA and Internet communication are expanding their intellectual horizons across borders north and south This collection of essays functions as a how to guide to comparative frontier research in the Americas Frontiers specialist Richard W Slatta presents topics techniques and methods that will intrigue social science professionals and western history buffs alike as he explores the frontiers of North and South America from Spanish colonial days into the twentieth century The always popular cowboy is joined by the fascinating gaucho llanero vaquero and charro as Slatta compares their work techniques roundups songs tack lingo equestrian culture and vices We visit saloons and pulperias as well as plains and pampas and Slatta expertly compares clothing weather terrain diets alcoholic beverages card games and military tactics From primary records we learn how Europeans Native Americans and African Americans became the ranch hands cowmen and buckaroos of the Americas and why their dependence on the ranch cattle industry kept them bachelors and landless peons      *Herbert E. Bolton and the Historiography of the Americas* Russell Magnaghi, 1998-08-20

The comparative approach to the understanding of history is increasingly popular today This study details the evolution of comparative history by examining the career of a pioneer in this area Herbert E Bolton who popularized the notion that hemispheric history should be considered from pole to pole Bolton traced the study of the history of the Americas back to 16th century European accounts of efforts to bring civilization to the New World and he argued that only within this larger context could the histories of individual nations be understood After American entry into the Spanish American War in 1898 historians such as Bolton promoted the idea of comparative history and it remains to this day a significant historiographical approach Consideration of the history of the Americas as a whole dates back to 16th century European treatises on the New World Chapter one of this study provides an overview of pre Bolton formulations of such history In chapter two one sees the forces that shaped Bolton s thinking and brought about the development of the concept Chapters three and four focus upon the evolution of the approach through Bolton s history course at the University of California at Berkeley and the reception of the concept among Bolton s contemporaries Unfortunately Bolton never fully developed the theoretical side of his arguement thus chapter five chronicles the decline of his ideas after his death The final chapter reveals the survival of the concept which is now embraced by a new generation of historians who are largely unfamiliar with Bolton s instrumental role in the promotion of comparative history      **Frontiers** Martin Hall, 1984 BAR S207 1984      *Rulers, Nomads, and Christians in Roman North Africa* Brent D. Shaw, 2024-10-28

The studies collected in this volume cover three broad areas of the history of North Africa as part of the Roman Empire Studies devoted to the history of political institutions are followed by ones that detail aspects of interactions between nomad and

sedentarist communities in the African provinces The book concludes with two studies on African christianity In all of these special attention is given to the indigenous institutions economies and beliefs that informed the confrontation between African and Roman The studies in general argue for a strongly interactionist approach to historians reconstruction of the history of the period and the region a perspective that would emphasise the continuous conflict between the two world of African and Roman

**Writing the Northland** Barbara Stefanie Giehmann,2011

**Migration and Mortality in Africa and the Atlantic World, 1700-1900** Philip D. Curtin,2024-10-28 These papers explore the history of the tropical regions of the Atlantic basin sometimes focused on the Caribbean sometimes on Africa but always with a comparative dimension The Atlantic basin is central to most of these comparisons but they are a part of an even broader effort to capture the perspective of world history Some deal with the shores of the Atlantic in the framework of economic history but the author s concern is most particularly with the role of the environment in history especially the disease environment Disease was particularly important for migrants who moved from one disease environment to another In the tropical Atlantic disease was a crucial factor in the formation of the slave trade affecting both the involuntary passengers and those who came out from Europe to manage the trade

*The Tarragona Vortex* Lawrence J. McCrank,2022-09-30 This extensive bibliographic essay underpins the entire Tarragona Vortex study by focusing on this arena as one of the most contested frontiers in Western history comparable to Jerusalem in the East for broad issues of Romanization Westernization Islamization and Christianization Its book length chapters treat 1 diverse historiographies from local and Spanish to comparative Mediterranean and Crusade History and especially Ethno historiography and the explanatory concept of frontiers 2 the phenomena of religion conversion and reform and the conditioning agents of Islam and Latin Christianity in practice and adversity 3 religious universalism and violence especially religious war 4 the Crusade and Reconquest paradigms and century long debate 5 the environment on land and sea and setting for this History Although these themes are explored to include due reconsideration but avoid major digressions in its telling about Tarragona and the Tarraconensis they underly so much of Late Antique and Medieval historical research that this discussion pertains to the whole field of historical cultural and religious studies

*The Medieval Frontiers of Latin Christendom* Felipe Fernandez-Armesto,2017-05-15 The aim of this first volume in the series The Expansion of Latin Europe is to sketch the outlines of medieval expansion illustrating some of the major topics that historians have examined in the course of demonstrating the links between medieval and modern experiences The articles reprinted here show that European expansion began not in 1492 following Columbus s voyages but earlier as European Christian society re arose from the ruins of the Carolingian Empire The two phases of expansion were linked but the second period did not simply replicate the medieval experience Medieval expansion occurred as farmers merchants and

missionaries reduced forests to farmland and pasture created new towns and converted the peoples encountered along the frontiers to Christianity Later colonizers subsequently adapted the medieval experience to suit their new frontiers in the New World
