Women at War Rosemarie Skaine, 1999-03-15 The Persian Gulf War changed the face of combat It brought women s military roles into the spotlight in large part via the mass media and showed that many women performed combat roles similar to those of men during the conflict The war was thus an impetus for changes in laws that had prevented women from serving in combat assignments In past centuries because it was not culturally acceptable for women to serve in combat surprising numbers joined secretly under assumed male names After defining exactly what is meant by war and combat this work presents historical and present day views of the involvement of women in the military The impact of regulations on women in combat is analyzed as is the role of the American public in the controversy Female combat is put into context with sociological theory also discussed are readiness cohesion ability sexuality equal opportunity and family issues *Swords and Shields* Fred Hoffman, Albert Wohlstetter, David Scott Yost, 1987 **Southwest border law enforcement and trade** United States. Congress. Senate. Committee on Appropriations. Subcommittee on Treasury, Postal Service, and General

Government, 1988 *The Smart Set*, 1923 **Daily Report**, 1994 *The Smart Set* George Jean Nathan, Henry Louis Mencken, 1923 Florida Law Review, 2009 **Soldier of Fortune**, 2006 **Continuing Revelation** David F. Holland, 2005 In the first half of the nineteenth century a diverse contingent of American religious figures promoted the idea of an open canon of divine revelation Transcendentalists Hicksite Quakers Mormons and Shakers defined their faith against a culture that they accused of relegating religion s defining revelations to the ancient past In this they were joined by some of the most notable characters of their generation ranging from the provocative African American prophetess Sojourner Truth to the influential theologian Horace Bushnell Powerfully wielding this heterodox doctrine these revelationists left a lasting imprint on the United States religious culture This dissertation explores the reasons why the first half of the nineteenth century proved so conducive to the notion of an open canon Focusing on ideas rather than on social or psychological

explanations it argues that a confluence of conceptual trends gave the tenet of continuing revelation special currency in the antebellum era It proposes the existence of a revelatory equation which reasons that a cultural commitment to the necessity of divine revelation A when combined with a sense that the textual source of such revelation is historically distant B could both generate and justify appeals to continuing revelations C A B C This dissertation argues that antebellum Americans occupied a culture in which in response to both deistical attacks on Christianity and historically minded treatments of the Bible the A and the B variables of the revelatory equation had never been more pronounced They subsequently sustained an unusual amount of C In short antebellum Americans were living in the sum of a grand cultural equation The simplicity of this formulation however belies the intricate combination of factors in which that cultural logic was embedded The sequential progression of this society s revelatory reasoning weaved through such phenomena as the rise of common sense epistemologies conceptions of natural law the cult of domesticity and of course the Second Great Awakening In large measure to recreate the story of continuing revelation in early American thought is to reconstruct the broad contours of that thought itself Author s abstract *Living Biographies of Great Poets* Henry Thomas, Dana Lee Thomas, 1972 Model Penal Code Symposium , 2009 *Literary Relations East and West* East-West Center, Ryūkoku Daigaku, 1990 *Military Stability* Reiner K. Huber, Hilmar Linnenkamp, Ingrid Schölch, 1990 **A Synoptic History of Classical Rhetoric** James Jerome Murphy, Richard A. Katula, Donovan J. Ochs, Forbes I. Hill, Prentice A. Mendor, 1995 The purpose of history is to help people understand the present by providing a sense of continuity to their lives The history of western civilization begins in Ancient Greece So much of what we observe around us art architecture poetry drama and political systems is derived from the Greeks Even religious beliefs and beliefs about the solar system emanate from the writings of Greek and Roman philosophers Writing itself is a phenomenon of Greek civilization Students seeking to understand the social impact of technologies such as writing print and television must begin their study with figures such as Socrates who was one of the first to be concerned with the changes in social interaction and consciousness wrought by the emergence of writing on portable material For students of language an awareness of the classical world is particularly important The study of human discourse is an entirely western phenomenon As far as one can judge from surviving evidence the Greeks were the only people of the ancient world who endeavored to analyze the ways in which human beings communicate with each other Greece is therefore the birthplace of the art of discourse which includes not only rhetoric but also logic and grammar Although many other ancient civilizations produced literature only the Greeks produced analytic expository treatises that attempted to discover the actual bases of human communication Written treatises and school systems which allowed rhetorical discoveries to be transmitted to others enabled the Greeks and later the Romans to amass a considerable body of precepts to guide speakers and writers This body of precepts forms the basis for the study of rhetoric the art of human discourse This book provides a clear understanding of the classical roots of rhetoric While no single volume can account for every idea developed by the ancients

on the art of rhetoric this book seeks to present the concepts that will most effectively provide today's student with a basis for understanding human communication. The text contains essays about the period, original treatises by ancient writers with modern analyses that elaborate on their rhetorical precepts and representative speeches given by celebrated orators of the ancient world. In addition, a bibliography of readings is presented for those who want to study this period more deeply.
