The New Movie Magazine, 1930 *Metaphysics, Sophistry, and Illusion* Mark Balaguer, 2021-01-26 *Metaphysics Sophistry and Illusion* does two things First it introduces a novel kind of non factualist view and argues that we should endorse views of this kind in connection with a wide class of metaphysical questions most notably the abstract object question and the composite object question More specifically Mark Balaguer argues that there s no fact of the matter whether there are any such things as abstract objects or composite objects or material objects of any other kind Second *Metaphysics Sophistry and Illusion* explains how these non factualist views fit into a general anti metaphysical view called neo positivism and explains how we could argue that neo positivism is true Neo positivism is the view that every metaphysical question decomposes into some subquestions call them Q1 Q2 Q3 etc such that for each of these subquestions one of the following three anti metaphysical views is true of it non factualism or scientism or metaphysically innocent modal truth ism These three views can be defined very roughly as follows non factualism about a question Q is the view that there s no fact of the matter about the answer to Q Scientism about Q is the view that Q is an ordinary empirical scientific question about some contingent aspect of physical reality and Q can t be settled with an a priori philosophical argument And metaphysically innocent modal truth ism about Q is the view that Q asks about the truth value of a modal sentence that s metaphysically innocent in the sense that it doesn t say anything about reality and if it s true isn t made true by reality

Illusions James Sully,1884 *The Works of Edgar Allan Poe /: Tales of ratiocination and illusion* Edgar Allan Poe,1914 Temple bar ,1893 **Free Will and Illusion** Saul Smilansky,2000-03-30 Saul Smilansky presents an original treatment of the problem of free will which lies at the heart of morality and human self understanding He maintains that we have most of the resources we need for a proper understanding of the problem and the key to it is the role played by illusion The major traditional philosophical approaches are inadequate Smilansky argues their partial insights need to be integrated into a hybrid view which he calls Fundamental Dualism Common views about justice responsibility human worth and related notions are radically misguided and the absurd looms large We do however find some justification for enlightened moral views and grounding for some of our most cherished views of human nature The bold and perhaps disturbing claim of Free Will and Illusion is that we could not live adequately with a complete awareness of the truth about human freedom illusion lies at the centre of the human condition The necessity of illusion is seen to follow from the basic elements of the free will issue helping keep our moral and psychological worlds intact Smilansky offers the challenge of recognizing the centrality of illusion and trying to free ourselves to some extent from it this is not only a philosophical challenge but a moral and psychological one as well
