**Whatever is, is...** Rohitesh Gidwani,2014-11-01 Should life be lived voluntarily or involuntarily Effort full or effortless Are our worries of day today life misplaced Do we come into existence with a specific purpose What is that purpose This book is an attempt to solve these questions of life Keywords Philosophy Life Purpose Questions Existence Archetypes Elémire Zolla,2015-06-18 Man is dominated by his archetypes they mould not only his history but his dreams But how are we to define and evaluate them Is it perhaps possible for us to relate more creatively to them Originally published in 1981 these are some of the questions raised by this title To answer them the author gathered together a vast amount of material drawn from Eastern and Western traditions from science literature art and poetry The answers he puts forward are often highly original and will surely challenge many of our most cherished patterns of thought There emerges from this book what can only be described as a global metaphysical system yet the author s language is not that of an ordinary metaphysical treatise and what he writes offered new challenge and hope to those suffering from the despair and cynicism engendered by a great deal in modern society at the time Zolla does not however advocate a return to earlier historical patterns nor is he proposing a new Utopia but rather offers us a brilliant series of lessons in the art of centring In the words of Bernard Wall writing in the Times Literary Supplement Zolla s deep polymathic probing of the terms of human existence makes it sensible to compare him with Simone Weil while some of his conclusions about ultimate mysteries expressed in signs symbols and sacraments the sense of which we have lost will make us think of the later T S Eliot Democracy and Empire Inés Valdez,2023-09-07 Democracy and Empire theorizes the material basis of popular sovereignty via the Black radical tradition Popular sovereignty contains an affective attachment to wealth secured through collective agreements to dominate others i e self and other determination In s Valdez expands on racial capitalism by theorizing its Anglo European based popular politics which authorize capital accumulation enabled by empire and legitimated by racial ideologies This stunts political projects in the Global South Valdez masterfully outlines how social reproduction is provided by racialized others who sacrifice families and communities and how the political alienation from nature in wealthy polities is mediated by technology and enabled by a joint devaluation of nature and manual labor performed by racialized others The book concludes with a theorization of anti imperial popular sovereignty based on political relations that encompass nature This title is part of the Flip it Open Programme and may also be available Open Access Check our website Cambridge Core for details **Ghostworld** Simon R.
