Teacher Identity and the Struggle for Recognition Patrick M. Jenlink, 2014-04-09 Teacher identity is shaped by recognition or its absence often by misrecognition of others Recognition as a teacher or the strong and complex identification with one's professional culture and community is necessary for a positive sense of self Increasingly teachers are entering educational settings where difference connotes not equal better worse or having more less power over resources Differences between discourses of identity are braided at many points with a discourse of racism both interpersonal and structural Teacher Identity and the Struggle for Recognition examines the nature of identity and recognition as social cultural and political constructs In particular the contributing authors to the book present discussions of the professional work necessary in teacher preparation programs concerned with preparing teachers for the complexities of teaching in schools that mirror an increasingly diverse society Importantly the authors illuminate many of the often problematic structures of schooling and the cultural politics that work to define one's identity drawing into specific relief the nature of the struggle for recognition that all face who choose to enter teaching as a profession

Abarca, 2000 **Voices in the Kitchen** Meredith E. Abarca, 2006 Literally, chilaquiles are a breakfast I grew up eating: fried corn tortillas with tomato-chile sauce. Symbolically, they are the culinary metaphor for how working-class women speak with the seasoning of their food. From the Introduction: Through the ages and across cultures, women have carved out a domain in which their cooking allowed them to express themselves, strengthen family relationships, and create a world of shared meanings with other women. In *Voices in the Kitchen*, Meredith E. Abarca features the voices of her mother and several other family members and friends seated at their kitchen tables to share the grassroots world view of these working-class Mexican and Mexican American women. In the kitchen, Abarca demonstrates how women assert their own *sazón* (seasoning) not only in their cooking but also in their lives. Through a series of oral histories or *charlas culinarias* (culinary chats), the women interviewed address issues of space, sensual knowledge, artistic and narrative expression, and cultural and social change. From her mother's breakfast chilaquiles to the most elaborate traditional dinner, these women share their lives as they share their savory symbolic and theoretical meanings of food. The *charlas culinarias* represent spoken personal narratives, testimonial autobiography, and a form of culinary memoir created by the cooks as writers who speak from their kitchen space. Abarca then looks at writers as cooks to add an additional dimension to the understanding of women's power to define themselves. *Voices in the Kitchen* joins the extensive culinary research of the last decade in exploring the importance of the knowledge found in the practical, concrete, and temporal aspects of the ordinary practice of everyday cooking. Diálogo, 1997 Subversive Geographies Marie A. Miranda, 2000 **Chicana/Latina Studies**, 2006 **Things of the Spirit** Kristina K. Groover, 2004 Thirteen feminist-focused essays on women's spirituality provide important insights into the nature of the sacred as seen over many years through the female consciousness. *New Books on Women and Feminism*, 1999 *Feminist Bookstore News*, 1999 Bibliographic Guide to Chicana and Latina Narrative Kathy Leonard, 2003-08-30 Having produced a 1997 bibliography of short fiction by Latin American women that appears in English language anthologies, Leonard, Spanish and Hispanic linguistics, Iowa State U, decided to create one that incorporated the many works that did not meet the strict criteria.
