Local Churches in New Urban Britain, 1890-1975 Grant Masom, 2020-07-31 This monograph is an important contribution to our understanding of the varied fortunes of British Christianity during the twentieth century Rev Dr Andrew Atherstone Tutor in Church History and Latimer Research Fellow Wycliffe Hall University of Oxford UK This book is an important and original work Anyone interested in twentieth century Christianity in Britain will learn much from it Grant Masom enables the reader to make sense of the new urban spaces that became a key part of British life in the last hundred years Rev Dr David Goodhew Visiting Fellow of St Johns College Durham University UK This ground breaking study adds new depth to our understanding of the importance of religion in English life and the role of the churches in shaping their own destiny in the first three quarters of the twentieth century Dr Mark Smith Associate Professor in History University of Oxford UK This book contributes to the ongoing academic

debates on secularisation or the marginalisation of mainstream religious beliefs and practices in twentieth century British society It addresses three areas in which the current literature is weak the agency of organised religion in the outcomes described as secularisation rather than explanations based on external challenges such as the modernisation of society and thought increased affluence and more leisure choices a focus on urban areas transformed by twentieth century industrialisation and suburbanisation and an extended time period to the end of the third quarter of the twentieth century allowing proper consideration of long term trends alongside short term upheavals such as the World Wars the Great Depression and the social changes of the 1960s Further the book employs a distinctly different highly data driven approach considers all religious movements and sets its conclusions within the wider social and cultural context of a representative community *A Plan for Studying a Local Church* Byron Lester Fox,1930 **A Multifaceted Jewel: Studies On The Local Church** Boon-Sing Poh,2020-05-11 This book explains in short chapters the various facets of the life of a biblical church It is particularly suitable for pioneering situations in which believers are being prepared for covenanting together as churches The new as well as the older believers will be helped to have a clearer understanding of the local church Ignorance of the privileges responsibilities and liabilities of church membership is a cause of many churches remaining weak The quality is more important than the number of the churches we plant It is hoped that this book will be appreciated by more churches both in pioneering as well as the more established situations Credible Christian Communication World Council of Churches. Communications Department,1983 **The Holy Spirit in African Christianity** Chigor Chike,2015-04-01 This book is a study of what African Christians living in Britain believe about the Holy Spirit **Diagnosing the Rural Church, a Study in Method** Charles Luther Fry,1924 **Christianity in Britain Since 1914** David Goodhew,Mark Smith,2024-11-18 This book charts the profound changes in British Christianity over the last century It does so through the medium of diverse local case studies based on high quality new research The ethnic diversification of British churches in the last fifty years is a key theme of the volume Overall the chapters show how secularization has had different trajectories in different parts of the country Alongside this the book charts the surprising desecularisation of parts of Britain in recent decades A Guide for Local Church Planning Robert D. Pierson,James Hill Davis,United Methodist Church (U.S.). Oklahoma Conference,1972 Beyond the Academy David Thang Moe,2024-10-11 The term public theology was introduced by Martin E Marty in a 1974 article Since then scholarly discussions on public theology have become more popular in academic circles This book however is about the invitation for moving beyond the academy It provides two reasons for doing so First an overtly academic public theology is in crisis today Although public theology may be flourishing in the academy its relevance for real life is limited Second there is the ecclesial flourishing among grassroots Christian communities across Asia who witness to their lived faith in public and hidden life Their voices are largely unheard due to the gaps between the academy and the church This volume argues that we should consider their voices as key sources for developing a relevant

lived Asian public theology The author makes the case for reimagining the paradigm shifts in lived Asian public theology of religions and for bridging the unhappy gaps between the academic and grassroots voices Mobilizing Local Churches for International Student Ministry S. Beau Miller,2018
