been neutral moreover it has traditionally provided substantive direction and exerted significant authority over educational policy Yet this debate needs to move towards viewing multilingual education as an essential approach for our society and as something that should be prevalent among educational policymakers The audience for this book includes educators language teachers school leaders school boards program directors scholars and policy makers particularly if they want to join forces in building the future of education and investing in the multilingual capital of our nation This book is part of The Bilingual Revolution Series Praises We are at a critical point in our nation in which we can continue to hold on to our monolingual past or embrace a multilingual and more inclusive future The Gift of Languages helps us prepare and understand the necessary paradigm shift to adopt and implement a multilingual curriculum and mindset in our schools and communities Co authored by two pioneers and experienced experts in the bi and multilingual education space the book is a must read for educators policy makers community leaders students and interested parents who want to make meaningful changes now Andrew H Clark Ph D Chair Dept of Modern Languages as a nation we have not lived up to his words and actions Let us remind ourselves that we started out a linguistically and culturally diverse group of peoples that came together to build a strong nation over the years Linguistic diversity is the gift that our nation needs to give itself Francesco L Fratto President The Foreign Language Association of Chairpersons and Supervisors Mastering languages is essential for communicating with and understanding others respecting each other and appreciating our heritages and our roots The Gift of Languages offers an invaluable toolbox for policy makers educators families and students who are already working in the field of language and those who hope to create the kind of paradigm shift that the authors advocate The book provides cogent arguments in favor of expanded language learning at all levels and especially argues in favor of expanding the breadth and variety of multilingual educational opportunities already spreading in public school systems from Utah to Louisiana to New York and beyond The authors cite examples of the Bilingual Revolution already underway and provide the kinds of arguments and examples that resonate for educators and drive policy towards furthering the way we value language education in the United States The book is indispensable for anyone interested in the future of foreign language education Jane F Ross Ph D President and Founder French Heritage Language Program Over 60% of people on the planet are bilingual or multilingual which suggests that this is the norm for human beings and multiple studies demonstrate the cognitive social political and financial benefits of bilingualism Yet in the United States we regularly hear news stories about people being shamed bullied and sometimes violently harmed for speaking other languages even when they also speak English Accessibly written this book offers detailed arguments for both why and how the nation should embrace and promote linguistic diversity Options for adults are expertly addressed yet the authors invest even greater passion and detail in promoting early educational programs in which no child is left monolingual I can think of no better way to shift our nation s view of itself from English Only to English Plus and create a more inclusive society We need a roadmap and this book clearly lays out the territory and possible
