established traditions and expectations but they cannot be complacent in these illusory stabilities Rather they must be awake to the imperatives of their own re invention and re claimed relevance to today s society and today s professional class in the workforce Across the chapters we explore the core spaces of professional practice discourse from the vantage point of the margins of this space and the margin spaces as they interact with the core Marginalia serves as an architect of destabilisation challenge revolution reflection or sometimes affirmation of the central discourse space There are five sections in the book Section One Professional practice discourse Section Two Leading the practice discourse Section Three Writing from inside practice Section Four Writing onto and into practice and Section Five Marking trails and stimulating insights Readers are invited to contribute to our exploration of the phenomenon and practice of professional practice discourse
