The Adoption:

The Adoption Mystique Joanne Wolf Small M.S.W.,2006-11-01 The framework that surrounds adoption laws policies and practices the beliefs myths and attitudes that endow it with enhanced and profound meaning value and mystery are what author Joanne Wolf Small M S W calls the adoption mystique Its power is evident in the disparaging attitudes about adoption and adoptees held by millions of people Important issues remain buried and most of the affected have kept silent It is no wonder that we know so little about adoption and its aftermath The Adoption Mystique outlines the history and background of American adoption culture from a psychosocial or environmental perspective It looks at adoption through a series of essays that explore the hidden but powerful religious social and economic factors that affect society s image of adoption past and present The undercurrent of negative feelings and treatment accorded adoptive families and adoptive status in particular remain much the same despite recent reforms The book not only examines the problem but leads to an effective solution

The Adoption Plan Jack Neubauer,2025-03-18 During the tumultuous years of World War II and the Cold War new global humanitarian ideas and practices coalesced around the cause of saving the children in China How did China s children become archetypal victims who ignited a new global humanitarian imagination And who would prevail in the transnational contest to control the vast quantities of aid flowing into China on their behalf The Adoption Plan offers a new history of the rise of global humanitarianism that places the recipients administrators and critics of humanitarian aid in China at the center of the story Analyzing how the adoption plan for international child sponsorship became one of the most popular fundraising strategies for humanitarian work in China and across the world Jack Neubauer explores how the globalization of humanitarian aid was linked to new practices of global intimacy that enabled donors to build personal relationships with Chinese children across geographic and cultural divides Drawing on hundreds of letters written by Chinese children to foreign sponsors and extensive research in Chinese archives Neubauer shows how China s Nationalist and Communist parties mobilized the emotional bonds between children and sponsors to secure international support for their competing political projects By the 1950s child sponsorship and international adoption had become the most hotly contested humanitarian programs in Cold War East Asia Upending the conventional view of humanitarianism as a tool of Western influence The Adoption Plan demonstrates that it was often the Chinese recipients of aid who were best able to control its material and ideological uses
