## CHAPTER I

### THE CHARACTER OF OCCULT SCIENCE

**A**T the present time the words "occult science" are apt to arouse the most divergent feelings. Upon some people they work like a magic charm, like the announcement of something to which they feel attracted by the innermost powers of their soul; to others there is in the words something repellent, calling forth contempt, derision, or a compassionate smile. By many, occult science is looked upon as a lofty goal of human effort, the crown of all other knowledge and cognition; others, who are devoting themselves with the greatest earnestness and noble love of truth to that which appears to them true science, deem occult science mere idle dreaming and fantasy, in the same category with what is called superstition. To some, occult science is like a light without which life would be valueless; to others, it represents a spiritual danger, calculated to lead astray immature minds and weak souls, while between these two extremes is to be found every possible intermediate shade of opinion.

Strange feelings are awakened in one who has attained a certain impartiality of judgment in

*The Character of Occult Science* Rudolf Steiner, 2005-12 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to the original work

**Secrets Of Occult Science** L. R. Chawdhri, 1990-12 God has created this world and everything in it has a meaning It is for man to discover these hidden meanings or messages and decipher them for his own good Ancient civilisations like those of the Hindus Greeks Romans Chaldaeans Chinese and Sumerians considered these hidden meanings to be of vital significance in the context of the destiny and personality of human beings Dreams omens moles on a person s body twitching of certain parts of the body handwriting all have a hidden meaning for us to discover What sun sign we are born under and how it affects our personality and life the use of lucky charms and Tantric articles to mitigate evil influences and attain good health wealth and happiness modern yantras like Crystal Ball Gazing and the Mystic Eye are all dealt with in this book in a simple and interesting manner for the uninitiated reader as well as for astrologers palmists and others

*An Outline of Occult Science* Rudolf Steiner, 1922 An Outline of Occult Science is Rudolf Steiner s thesis discussing the unknown the nature of mankind and his belief that science may be used to explain the unusual phenomena known as the occult First published in 1910 this book strives to define categorize and explain various manifestations of the occult The author concedes at the opening of the book that many otherwise open minded and receptive individuals immediately recoil from the concept of the the unknown especially in relation to attempts to investigate it scientifically After introducing the occult Steiner delves into explaining the two worlds he thought comprised the reality we live in The natural world that which is visible and readily perceivable around us and the spiritual world where the unexplained phenomena arise The nature of man as a bodily being and how his physical self bridges the gap between these two worlds is much detailed Famous as a literary critic Rudolf Steiner s interest in the occult phenomena meant that much of his later life was characterized by research into spiritual texts He passionately believed that much of the strange paranormal or occult phenomena human beings have observed have a spiritual yet scientific explanation it is with this essential belief in mind that Steiner attempts to persuade the reader Although unusual in subject matter An Outline of Occult Science is written in an accessible style What would otherwise be dry and inscrutable is made interesting and exotic by Steiner who was used to writing for a popular audience in his career as a literary critic This edition of his book contains all of his original notes which are appended at the conclusion for ease of reference

**Understanding Occult Sciences** Nandlal Vanvari, 2004-01-01 The Book Examines The Occult Sciences That Deal With The Birth And Name Related Attributes Of Human Beings Their Bodily Features And Their Style Of Writing Astrology Numerology Palmistry Physiognomy Phrenology Moleosophy And Graphology For Deeper Insights Into Personality And Fate With Easy To Understand Examples

It Reveals The Way In Which These Sciences Explain Aspects Of Human Character And Mind *An Outline of Occult Science* Rudolph Steiner,2016-07-25 Human understanding as it works in everyday life and in ordinary science is actually so constituted that it cannot penetrate into superphysical worlds This may be proven beyond the possibility of denial But this proof can have no more value for a certain kind of soul life than the proof one would use in showing that man s natural eye cannot with its visual faculty penetrate to the smallest cells of a living being or to the constitution of far off celestial bodies
