The Christian Synthesis:

The Christian Synthesis William Samuel Lilly, 2005-12-01 This scarce antiquarian book is a facsimile reprint of the original. Due to its age it may contain imperfections such as marks, notations, marginalia, and flawed pages. Because we believe this work is culturally important, we have made it available as part of our commitment for protecting, preserving, and promoting the world's literature in affordable, high-quality modern editions that are true to the original work.

The Christian College (Renewed Minds) William C. Ringenberg, 2006-04-01 When it first appeared in 1984, *The Christian College* was the first modern comprehensive history of Protestant higher education in America. Now this second edition updates the history, featuring a new chapter on the developments of the past two decades, a major introduction by Mark Noll, a new preface and epilogue, and a series of instructive appendixes.

The Christian Century, 1925 **Philosophy and Christianity** D. H. Th. Vollenhoven, 2025-12-10 Dirk Vollenhoven, professor of philosophy at the Free University of Amsterdam, has hitherto been overshadowed by his more well-known brother-in-law, Herman Dooyeweerd. Yet it was the two of them together who developed what has come to be known as Calvinistic philosophy. The distinguishing characteristic of this philosophy is its presuppositional basis, ostensibly in the Calvinistic understanding of the Christian religion. This is a unique approach, and it is on full display in *Philosophy and Christianity*, the substance of a series of lectures given in South Africa in 1963. And the lecture format, delivered primarily to undergraduate students, makes for eminently accessible material. Prof. Vollenhoven takes his listeners on a journey through the entire history of philosophy, assessing and categorizing a plethora of thinkers through the ages, ranging from Heraclitus to Heidegger. In this unique and comprehensive framework of categorization is on full display. Along the way, he focuses on various specific topics of interest: evolution, psychology, anthropology, education, science. For good measure, he throws in a Bible study. And provides the icing on the cake in specific discussions of the relation of philosophy to the Christian faith. Vollenhoven gives us a unique perspective on the relationship between philosophy and Christianity. One of the benefits of his work is the opportunity it provides to compare and contrast his approach with Dooyeweerd's, an exercise that adepts will find enticing. The differences are there, along with the similarities. Beyond that, Vollenhoven's approach is worthwhile in its own right. It is high time that it were made available in a comprehensive manner to a wider English language audience.

The Christian State Samuel Zane Batten, 1909 **Modern Orthodox Theology** Paul Ladouceur, 2019-02-21 Modern Orthodox theology represents a continuity of the Eastern Christian theological tradition stretching back to the early Church and especially to the Ancient Fathers of the Church. This volume considers the full range of modern Orthodox theology. Ladouceur then focuses on theology in imperial Russia, the Russian religious renaissance at the beginning of the 20th century, and the origins and nature of neopatristic theology, as well as the new theology in Greece.

and Romania and tradition and the restoration of patristic thought Subsequent chapters examine specific major themes God and Creation Divine humanity personhood and human rights The Church of Christ Ecumenical theology and religious diversity The Christification of life Social and Political Theology The Name of God conflict The ordination of women The volume concludes with assessments of major approaches of modern Orthodox theology and reflections on the current status and future of Orthodox theology Designed for classroom use the book features case studies a detailed index a list of recommended readings for each chapter
