Latin American Novels of the Conquest Kimberle S. López,2002 The fictionalized explorers and conquistadors represented in this corpus all identify with certain aspects of Amerindian culture significantly those elements that are most distinct from European culture such as cannibalism and human sacrifice but also feel the need to distance themselves from these others in order to protect their own European cultural identity In most cases the conquistadors themselves are represented as outsiders within the enterprise of imperialism due to ethnic religious or sexual differences from the norm This representation turns the gaze inward toward the other within European culture underscoring the complex origins of Latin American cultures in the violent encounter between the Amerindians and the conquistadors By examining these issues Lopez s Latin American Novels of the Conquest illuminates the ways in which Latin American novelists used their literary imaginations to embody their ambivalence regarding their own transcultural heritage as children of both the colonized and the colonizer

Lomax, 1988 It is astonishing that this is the first English translation of these Chronicles as they are undoubtedly amongst the finest produced in the Middle Ages and treat an important episode in the Hundred Years War Lopes mastery of dramatic narrative and picturesque description so ably captured in this translation found a fit subject in the foreign interventions and the revolutionary changes that took place in the second half of the 14th century in Portugal What makes Lopes virtually unique as an historian of that date is his insistence on the use of documentary sources as he explains in his prologue to The Chronicle of Dom Joao something that he as the keeper of the Royal archives was able to practice so effectively It seems fitting that Fernao Lopes great work should appear in a dual language edition as a tribute to the six hundred years alliance whose beginning he so vividly recalls between the English and Portuguese peoples Publications of the Studium Biblicum Franciscanum , 1953 **The Chronicle of the Discovery and Conquest of Guinea: (chapters 41-97) With an introduction on the early history of African exploration, cartography, etc. [by C.R.
