The Churches And Politics In Germany

Catherine Wilkins

The Churches And Politics In Germany:

The Churches and Politics in Germany Frederic Spotts, 1973 Probably in no other European country have the churches enjoyed such pervasive social and political influence as in western Germany or succeeded in carrying into the twentieth century so many of their traditional privileges Even today the two confessions remain among the more powerful interest groups in the German policy making process Frederic Spotts major thesis is that the immediate post war circumstances in Germany permitted the churches to mould social attitudes indirectly thereby playing a major role in the construction of the new Germany The author further shows that the paradoxical concomitant has been that they helped to bring about a sweeping secularization of German society that now circumscribes both their social and political influence Making full use of the available documents including many unpublished church papers and governmental reports and of his own interviews with officials Mr Spotts has been able to clarify certain aspects of this important period in German history In his comparative approach and his clear narrative account of the years from 1945 until the present he offers to Germanists and to other interested scholars the first full scale study of the complex role of the churches in rebuilding Germany

The Protestant and the Catholic Churches in Germany United States. Office of Strategic Services. Research and Analysis Branch, 1944

The Catholic Church And Nazi Germany Guenter Lewy, 2009-09-09 The subject matter of this book is controversial Guenter Lewy states plainly in his preface To show the German Catholic Church s congeniality with some of the goals of National Socialism and its gradual entrapment in Nazi policies and programs Lewy describes the episcopate s support of Hitler s expansionist policies and its failures to speak out on the persecution of the Jews To this tragic history Lewy brings new focus and research illuminating one of the darkest corners of our century with scholarship and intellectual honesty in a riveting and often painful narrative

Politics in Germany Lewis Joachim Edinger, 1968

Landscape Imagery, Politics, and Identity in a Divided Germany, 1968-1989 Professor Catherine Wilkins, 2013-12-02 Landscape Imagery Politics and Identity in a Divided Germany 1968 1989 explores the communicative relationship between German landscape painting and the viewing public that developed in the wake of the student revolutions of the late 1960s The book dem

"Landscape Imagery, Politics, and Identity in a Divided Germany, 1968?989 " Catherine Wilkins, 2017-07-05

Landscape Imagery Politics and Identity in a Divided Germany 1968 1989 explores the communicative relationship between German landscape painting and the viewing public that developed in the wake of the student revolutions of the late 1960s The book demonstrates that contrary to some historical thinking more similarities than differences characterized the sociopolitical concerns of East and West Germans during the late Cold War Era and that it was these shared issues that were reflected in the revival of the Romantic painting genre Catherine Wilkins focuses on recovering the agency of the individual artist and in revising historiography with sensitivity to narration from below Interdisciplinary in nature art historians can benefit from the study s analysis of images and artists not widely known outside of Germany Additionally the consolidation of

statistics and data regarding German postwar cultural policy are relevant for political and cultural historians The author contributes to the ongoing multidisciplinary debates regarding Histoire Crois in arguing that a clear dichotomy between East Germany and West Germany did not exist but rather that the residents of both nations shared a concern over some of the same issues of the period and memory studies by using images as primary historical sources able to be employed in the recovery of potentially subversive memory and identity Issues related to gender relations environmentalism and spiritual belief are addressed by Wilkins with appeal for scholars working with those particular themes Poststructuralist and literary theorists as well can find arguments supporting an alternative means of writing history through artworks and private memories

The British Press and Nazi Germany Kylie Galbraith,2020-12-10 What was known and understood about the nature of the Nazi dictatorship in Britain prior to war in 1939 How was Nazism viewed by those outside of Germany The British Press and Nazi Germany considers these questions through the lens of the British press Until now studies that centre on British press attitudes to Nazi Germany have concentrated on issues of foreign policy The focus of this book is quite different In using material that has largely been neglected Kylie Galbraith examines what the British press reported about life inside the Nazi dictatorship In doing so the book imparts important insights into what was known and understood about the Nazi revolution And because the overwhelming proportion of the British public s only means of news was the press this volume shows what people in Britain could have known about the Nazi dictatorship It reveals what the British people were being told about the regime specifically the destruction of Weimar democracy the ruthless persecution of minorities the suppression of the churches and the violent factional infighting within Nazism itself This pathbreaking examination of the British press coverage of Nazism in the 1930s greatly enhances our knowledge of the fascist regime with which the British Government was attempting to reach agreement at the time

Germany and the Confessional Divide Mark Edward Ruff,Thomas Großbölting,2021-12-10 From German unification in 1871 through the early 1960s confessional tensions between Catholics and Protestants were a source of deep division in German society Engaging this period of historic strife *Germany and the Confessional Divide* focuses on three traumatic episodes the Kulturkampf waged against the Catholic Church in the 1870s the collapse of the Hohenzollern monarchy and state supported Protestantism after World War I and the Nazi persecution of the churches It argues that memories of these traumatic experiences regularly reignited confessional tensions Only as German society became increasingly secular did these memories fade and tensions ease

A History of Germany Charlton Thomas Lewis,1902

The Economic, Financial and Political State of Germany Since the War Peter Reinhold,1928

The 'Conservative Revolutionaries' Barbara Theriault,2004-10-01 During the forty years of division the Protestant and Catholic churches in Germany were the only organizations to retain strong ties and organizational structures they embodied continuity in a country marked by discontinuity As such the churches were both expected to undergo smooth and rapid institutional consolidation and undertake an active role in the public realm of the new eastern German states in the

1990s Yet critical voices were heard over the West German system of church state relations and the public role it confers on religious organizations and critics often expressed the idea that despite all their difficulties something precious was lost in the collapse of the German democratic republic Against this backdrop the author delineates the conflicting conceptions of the Protestant and Catholic churches public role and pays special attention to the East German model or what is generally termed the positive experiences of the GDR and the Wende

The History of the Thirty Years' War in Germany Friedrich Schiller, 1884

Germany from Napoleon to Bismarck Thomas Nipperdey, 2014-07-14 Thomas Nipperdey offers readers insights into the history and the culture of German nationalism bringing to light much needed information on the immediate prenational period of transition A subject of passionate debates the beginnings of German nationalism here receive a thorough going exploration from the dissolution of the Holy Roman Empire to Bismarck's division of the German speaking world into three parts an enlarged Prussian state north of the Main an isolated Austria Hungary in the south and a group of Catholic states in between This altering of power structures Nipperdey maintains was the crucial action on which the future of the German state hinged He traces the failure of German liberalism amidst the rise of nationalism turning it from a story of inevitable catastrophe toward a series of episodes filled with contingency and choice The book opens with the seismic effect of Napoleon on the German ancien régime Napoleon's modernizing hegemony is shown to have led to the gradual emergence of a civil society based on the liberal bourgeoisie Nipperdey examines the fate of this society from the revolutions of 1848-49 through the rise of Bismarck Into this story he weaves insights concerning family life working conditions agriculture industrialization and demography as well as religion learning and the arts Originally published in 1996 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
