**Maps of Time** David Christian,2004-02-23 A history of the world from the big bang to the present Big history is a new approach to world history that joins the history of the world as a physical entity to human history David Christian is the leading proponent of this approach to world history Maps of Time David Christian, Maps of Time David Christian,2004-02-23 An introduction to a new way of looking at history from a perspective that stretches from the beginning of time to the present day Maps of Time is world history on an unprecedented scale Beginning with the Big Bang David Christian views the interaction of the natural world with the more recent arrivals in flora and fauna including human beings Cosmology geology archeology and population and environmental studies all figure in David Christian s account which is an ambitious overview of the emerging field of Big History Maps of Time opens with the origins of the universe the stars and the galaxies the sun and the solar system including the earth and conducts readers through the evolution of the planet before human habitation It surveys the development of human society from the Paleolithic era through the transition to agriculture the emergence of cities and states and the birth of the modern industrial period right up to intimations of possible futures Sweeping in scope finely focused in its minute detail this riveting account of the known world from the inception of space time to the prospects of global warming lays the groundwork for world history and Big History true as never before to its name *Maps of the Imagination* Peter Turchi,2011-06-01 Maps of the Imagination takes us on a magic carpet ride over terrain both familiar and exotic Using the map as a metaphor fiction writer Peter Turchi considers writing as a combination of exploration and presentation all the while serving as an erudite and charming guide He compares the way a writer leads a reader through the imaginary world of a story novel or poem to the way a mapmaker charts the physical world To ask for a map says Turchi is to say Tell me a story With intelligence and wit the author looks at how mapmakers and writers deal with blank space and the blank page the conventions they use or consciously disregard the role of geometry in maps and the parallel role of form in writing how both maps and writing serve to re create an individual s view of the world and the artist s delicate balance of intuition with intention A unique combination of history critical cartography personal essay and practical guide to writing Maps of the Imagination is a book for writers for readers and for anyone interested in creativity Colorful illustrations and Turchi s insightful observations make his book both beautiful and a joy to read **General Maps of Persia 1477 - 1925** Cyrus Alai,2021-12-06 **Paul, in Other Words** Jerome H.
