dedicated to the Mater Unitatis A stand alone chapter is dedicated to Marian apparitions authentic apparitions are presented as a part of prophetic charisma The last chapter presents the basics on Marian devotion which culminates in the consecration to Mary as a response to her maternal mediation Already available in Spanish Italian Portugese and Korean this landmark work is published here for the first time in English *Short Catechism of Mary* Charles Journet,1991-07-01 Short Catechism that presents the Church s teaching about Our Lady in clear and concise form Written by a world famous theologian who was active at Vatican II this little book will enable the reader to learn at a glance the essential Catholic teachings about Mary and what she means to the life of all Christians Illustrated Printed in two colors **Music and Religious Identity in**

Counter-Reformation Augsburg, 1580-1630 Alexander J. Fisher,2017-05-15 By the late sixteenth century Augsburg was one of the largest cities of the Holy Roman Empire boasting an active musical life involving the contributions of musicians like Jacobus de Kerle Hans Leo Hassler and Gregor Aichinger This musical culture however unfolded against a backdrop of looming religious schism From the mid sixteenth century onward Augsburg was the largest biconfessional city in the Empire housing a Protestant majority and a Catholic minority ruled by a city government divided between the two faiths The period 1580 1630 saw a gradual widening of the divide between these groups The arrival of the Jesuits in the 1580s polarized the religious atmosphere and fueled the assertion of a Catholic identity expressed in public devotional services spectacular processions and pilgrimages to local shrines The Catholic music produced for these occasions both reflected and contributed to the religious divide This book explores the relationship between music and religious identity in Augsburg during this period How did Catholic and Protestant repertories diverge from one another What was the impetus for this differentiation and what effect did the circulation and performance of this music have on Augsburg s religious culture These questions call for a new cross disciplinary approach to the music history of this era one which moves beyond traditional accounts of the lives and works of composers or histories of polyphonic genres Using a wide variety of archival and musical documents Alexander Fisher offers a holistic view of this musical landscape examining aspects of composition circulation performance and cultural meaning [Mariology at the Beginning of the Third Millennium](#) Kevin Wagner,M. McGregor,Paul Morrissey,2017-04-24 Since the Second Vatican Council the place of Mary in theology and generally in the life of the Church has been at times muted This is perhaps understandable given the debates concerning Mary s place in the documents of Vatican II In an ecumenical age it was argued the church needed a less triumphalist Mariology and piety with a greater focus on Mary as model disciple In certain respects this has led to a dichotomy between the continued Marian piety of many faithful and truth be told the piety of the post conciliar popes and a theological timidity concerning Mary This collection of chapters seeks to address the current situation of Mariology Taken as a whole these chapters represent a welcome call for renewal and reawakening in Mariology The collection is also delightfully eclectic both in terms of topics covered and in terms of the denominational and academic backgrounds of the authors [Behold the Lamb of God](#) Patrick J.
