Travellers, Intellectuals, and the World Beyond Medieval Europe James Muldoon,2017-05-15 As the articles reprinted in this volume demonstrate medieval men and women were curious about the world around them They wanted to hear about distant lands and the various peoples who inhabited them Travellers tales factual such as that of Marco Polo and fictional such as Chaucer s famous pilgrimage entertained audiences across Europe Colorful mappaemundi placed in churches illustrated these other lands and peoples for those who could not read Medieval travel literature was not only entertaining however it was also informative generating proto ethnological information about the world beyond Latin Christendom that provided useful guidance for those such as merchants and missionaries who intended to travel abroad Merchants learned about safe travel routes to foreign lands about dangers to be avoided on the roads and at sea about cultural practices that might interfere with their attempts at trade and about products that would be suitable for foreign markets Churchmen read the reports of missionaries to understand the beliefs of Muslims and other non believers in order to debate with them and to learn their languages These articles illustrate how travellers reports in turn shaped the European response to the world beyond Europe and are set in context in the editor s introduction

The World Beyond Europe in the Romance Epics of Boiardo and Ariosto Jo Ann Cavallo,2013-10-28 This study offers a sustained

examination of the presentation of eastern Asia the Middle East and northern Africa in two of the most important chivalric epics of the fifteenth and sixteenth centuries Matteo Maria Boiardo's Orlando Innamorato 1495 and Ludovico Ariosto's Orlando Furioso 1516 Comparing the narratological strategies used to depict non-European characters in these stories Jo Ann Cavallo argues that Boiardo's cosmopolitan vision of humankind increasingly became replaced by Ariosto's crusading ideology which emphasized a binary opposition between Christians and Saracens Cavallo addresses the poems mixing of imaginary sites and the geographical reality of a rapidly expanding globe contextualizing them against current events and concerns as well as ancient medieval and Renaissance texts influential at the time As the prize committee for the Scaglione Publication Award for a Manuscript in Italian Literary Studies noted This articulate engaging and well documented study represents an important work of scholarship in its cross-cultural considerations of Italian Renaissance epic poetry
