Designing for Situation Awareness Mica R. Endsley,Betty Bolte,Debra G. Jones,2003-07-17

Enhancing Situation Awareness SA is a major design goal for projects in many fields including aviation ground transportation air traffic control nuclear power and medicine but little information exists in an integral format to support this goal Designing for Situation Awareness helps designers understand how people acquire and interpret information in complex settings and recognize the factors that undermine this process Designing to support operator SA reduces the incidence of human error which has been found to occur largely due to failures in SA Whereas many previous human factors efforts have focused on design at the perceptual and surface feature level SA oriented design focuses on the operator s information needs and cognitive processes as they juggle to integrate information from many sources and achieve multiple competing goals Thus it addresses design from a system s perspective By applying theoretical and empirical information on SA to the system design process human factors practitioners can create designs to support SA across a wide variety of domains and design issues This book serves as a helpful reference to that end

Transportation Economic Analysis* National Research Council (U.S.). Transportation Research Board,2000 Conference
participants sought to identify gaps in the data and analytic tools needed to support economic analysis as related to
transportation investment and to develop research proposals designed to fill those gaps The opening day of the conference
featured presentations by economists transportation analysts and policy makers on the theory and practice of economic
analysis and its usefulness to decision makers The second and third days of the conference revolved around participatory
workshops Six separate working groups deliberated over three questions 1 What is the appropriate level of investment in
transportation to encourage economic health 2 How should projects be prioritized within a multimodal transportation
program 3 How much revenue is likely to flow from user charges tolls and other sources At the conclusion of its deliberations
each working group developed a list of research proposals which it then presented to the conference as a whole
