African Spiritual Traditions in the Novels of Toni Morrison K. Zauditu-Selassie,2009 Addresses a real need a scholarly and ritually informed reading of spirituality in the work of a major African American author No other work catalogues so thoroughly the grounding of Morrison s work in African cosmogonies Zauditu Selassie s many readings of Ba Kongo and Yoruba spiritual presence in Morrison s work are incomparably detailed and generally convincing Keith Cartwright University of North Florida Toni Morrison herself has long urged for organic critical readings of her works K

Zauditu Selassie delves deeply into African spiritual traditions clearly explaining the meanings of African cosmology and epistemology as manifest in Morrison's novels. The result is a comprehensive tour de force critical investigation of such works as *The Bluest Eye*, *Sula*, *Song of Solomon*, *Tar Baby*, *Paradise*, *Love, Beloved*, and *Jazz*. While others have studied the African spiritual ideas and values encoded in Morrison's work, *African Spiritual Traditions in the Novels of Toni Morrison* is the most comprehensive. Zauditu Selassie explores a wide range of complex concepts including African deities, ancestral ideas, spiritual archetypes, mythic trope, and lyrical prose representing African spiritual continuities. Zauditu Selassie is uniquely positioned to write this book as she is not only a literary critic but also a practicing Obatala priest in the Yoruba spiritual tradition and a Mama Nganga in the Kongo spiritual system. She analyzes tensions between communal and individual values and moral codes as represented in Morrison's novels. She also uses interviews with and nonfiction written by Morrison to further build her critical paradigm.

Cauldron of Transformation Lady Sabrina, 1996. Tired of the politics and dogma of the Christian Church, thousands of spiritual seekers have found the answers in Co-Creation Spirituality, a progressive formulation of doctrine and ritual that bridges the gap between Wiccan ideology and the original intent of the Christian mysteries. *Cauldron of Transformation* refreshingly approaches spirituality from an unbiased view and proclaims the truth and beauty of five religious traditions: Celtic Druidism, Buddhism, Christianity, Santería,

and Shamanism Lady Sabrina teaches you how to blend and combine the wisdom of these different traditions into a living spiritual system of your own

Introduction to New and Alternative Religions in America William M. Ashcraft, Eugene V. Gallagher, 2006-10-30 Most new or alternative religions are gravely misunderstood by members of the religious mainstream. Labeled cults or sects, groups and their members are often ridiculed or otherwise disregarded as weird and potentially dangerous by the populace at large. Despite their efforts at educating the general public, the various anti and counter cult activists have in fact promoted much more misunderstanding than accurate understanding of the religious lives of some of their fellow citizens. Consequently, they have helped to create a very hostile environment for anyone whose religious practices do not fit within a so-called mainstream. This set rectifies the situation by presenting accurate, comprehensive, authoritative, and accessible accounts of various new and alternative religious movements that have been and are active in American society and it addresses ways of understanding new and alternative religions within a broader context. Determining what actually constitutes a new or alternative religion is a subject of constant debate. Questions arise as to a new faith's legitimacy, beliefs, methods of conversion, and other facets of a religious movement's viability and place in a given culture. How a religion gains recognition by the mainstream, which often labels such new movements as cults, is fraught with difficulty, tension, and fear. Here, experts delineate the boundaries and examine the various groups, beliefs, movements, and other issues related to new faiths and alternative beliefs. Readers will come away with a fuller understanding of the religious landscape in America today.

Volume 1: History and Controversies discusses the foundations of new and alternative religions in the United States and addresses the controversies that surround them. This volume helps readers better understand what makes a new or alternative belief system a religion and the issues involved.

Volume 2: Jewish and Christian Traditions explores the various new religions that have grown out of these two Abrahamic faiths. Groups such as the Shakers, the People's Temple, the Branch Davidians, Jehovah's Witnesses, and others are examined.

Volume 3: Metaphysical, New Age, and Neopagan Movements looks at Shamanism, Spiritualism, Wicca, and Paganism among other movements as they have developed and grown in the U.S. These faiths have found new and devoted followers yet are often misunderstood.

Volume 4: Asian Traditions focuses on those new and alternative religions that have been inspired by Asian religious traditions. From Baha'i to Soka Gakkai, from Adidam to the Vedanta Society, contributors look at a full range of groups practicing and worshipping in the U.S. today.

Volume 5: African Diaspora Traditions and Other American Innovations examines the various traditions linked to the African diaspora, such as Rastafarianism, Santeria, and the Nation of Islam, alongside traditions that are truly American incarnations like Scientology, UFO religions, and Heaven's Gate. Some of the new and alternative religions covered in these pages include Shamanism, Wicca, Black Israelites, Santeria, Scientology, Elan Vital, Hare Krishna, Soka Gakkai, and many more.
