Asian American literary and cultural history as well as the authors and texts that best define it. A dozen contextual essays introduce fundamental elements or subcategories of Asian American literature expanding on social and literary concerns or tensions that are familiar and relevant. Essays include the origins and development of the term Asian American, overviews of Asian American and Asian Canadian social and literary histories, essays on Asian American identity, gender issues and sexuality and discussions of Asian American rhetoric and children's literature. More than 120 alphabetical entries round out the volume and cover important Asian North American authors. Historical information is presented in clear and engaging ways and author entries emphasize biographical or textual details that are significant to contemporary young adults. Special attention has been given to pioneering authors from the late 19th century through the early 1970s and to influential or well known contemporary authors especially those likely to be studied in high school or university classrooms.

Before taking part in the seminar Introduction to American Ethnic Groups Asian Americans I had neither heard anything about the situation of Asians living in the United States nor could I define terms like Issei, Nisei, relocation camp or assembly center. Through reading *The Chessmen* looking for information on Asian American internet sites and the biography of Toshio Mori I got a first impression of this subject in general and I got some inside into the working conditions of Japanese gardeners working in the US in the 1930s. Before reading this seven page story I thought that it would be impossible to write sixteen pages about such a short piece of literature but once I finished reading I realized that there is extraordinary depth to this subject. In my opinion Toshio Mori's *The Chessmen* is more than a fictional text dealing with the struggle of two Japanese gardeners trying to keep their job in a nursery in California. The situation Toshio Mori focuses on reflects today's society and the way we have to behave in order to achieve something in life. I decided to base my essay on the facts that are important to fully understand his works so I began with some background information and dealt with the biography of Toshio Mori and his topics of writing in general. Then I summarized the story. After writing an interpretation of *The Chessmen* I asked myself what the title of the story might have to do with the contents. Since the relation between

George and Nakagawa san mirrors Darwin s survival of the fittest I tried to transfer this idea into modern times I ended my paper with a conclusion that states my own opinion about The Chessmen **Biennial Report of the Department of Public Health of California** California.
