Special Operations Executive:

SOE Michael Richard Daniell Foot, 1985 Originally published London British Broadcasting Corporation 1984 Special Operations Executive Mark Seaman, 2013-01-11 This unique book presents an accurate and reliable assessment of the Special Operations Executive SOE It brings together leading authors to examine the organization from a range of key angles This study shows how historians have built on the first international conference on the SOE at the Imperial War Museum in 1998 The release of many records then allowed historians to develop the first authoritative analyses of the organization's activities and several of its agents and staff officers were able to participate Since this groundbreaking conference fresh research has continued and its original papers are here amended to take account of the full range of SOE documents that have been released to the National Archives The fascinating stories they tell range from overviews of work in a single country to particular operations and the impact of key personalities SOE was a remarkably innovative organization It played a significant part in the Allied victory while its theories of clandestine warfare and specialised equipment had a major impact upon the post war world SOE proved that war need not be fought by conventional methods and by soldiers in uniform The organization laid much of the groundwork for the development of irregular warfare that characterized the second half of the twentieth century and that is still here more potent than ever at the beginning of the twenty first This book will be of great interest to students of World War II history intelligence studies and special operations as well as general readers with an interest in SOE and World War II

S. O. E. M. R. D. Foot, 2014 *SOE the Special Operations Executive* was a small tough British secret service a dirty tricks department established in July 1940 and encouraged by Churchill to set Europe ablaze Recruited from remarkably diverse callings the men and women who were members of this most secret agency lived in great and constant danger Their job as saboteurs informers partisans couriers or secret agents was to support and stimulate resistance behind enemy lines their credentials fortitude courage immense patience and a devotion to freedom In this classic study M R D Foot sheds light on the heroism of individual SOE agents across the world and provides us with a spellbinding account of the Executive's crucial wartime work With an introduction by David Stafford The Secret History of SOE William Mackenzie, 2000-01-01 Now for the first time this highly classified account has been made available Never before have SOE's operations across the world been described in such detail and with total authority Mackenzie's document explores numerous controversies and reveals dozens of previously undisclosed episodes from Britain's secret war against the Axis Who were the agents parachuted in Germany What became of schemes designed to protect Gibraltar from a Spanish invasion Why did so many circuits suffer enemy penetration Where was SOE's sabotage really effective When did SOE decide to collaborate with the NKVD and infiltrate Soviet spies into Eastern Europe What is the truth behind SOE's policy to back Tito in Yugoslavia

BOOK JACKET *SOE* Michael Richard Daniell Foot, 1999 *SOE the Special Operations Executive* was a small tough British secret service a dirty tricks department set up in July 1940 Recruited from remarkably

diverse callings the men and women who were members of this most secret agency in the Second World War lived in great and constant danger Their job was to support and stimulate resistance behind enemy lines their credentials fortitude courage immense patience and a devotion to freedom The activity of the SOE was world wide Abyssinian tribesmen French farmers exiled Russian grandees coolies smugglers printers policemen telephonists tycoons prostitutes rubber workers railwaymen peasants from the Pyrenees to the Balkans even the regent of Siam all had a part to play as saboteurs informers partisans or secret agents In this engrossing and illuminating study the eminent Second World War historian M R D Foot sheds light on the heroism of individual SOE agents across the world and provides us with the definitive account of the Executive's crucial wartime work With an introduction by David Stafford *The Politics and Strategy of Clandestine War* Neville Wylie, 2006-09-15 This fascinating new collection of essays on Britain's Special Operations Executive SOE explores the non military aspects of British special operations in the Second World War It details how SOE was established in the summer of 1940 to set Europe ablaze as Churchill memorably put it This was a task it was meant to achieve by detonating popular resistance against Axis rule and nurturing secret armies which might be capable of providing military and other forms of assistance for British forces when they were once again able to return to the offensive and conduct land operations in Europe The importance of the collection however goes beyond merely illuminating aspects of SOE's work which have largely been overlooked in previous scholarship More significantly by situating SOE within the context of Britain's broader political needs the essays demonstrate the extent to which SOE came to epitomise and embody the range of skills that are found in today's secret service organisations SOE showed itself capable of operating on a global scale and developing the necessary expertise equipment and personnel to conduct activities across the whole spectrum of what we have come to know as covert operations By bringing SOE's activities into sharper focus and exposing the scale of its involvement in Britain's wartime external relations the essays echo current thinking on the place of the so called secret world in international politics

Special Operations in WWII James Stejskal, 2020-04-30 A brief history of secret British and American World War II organizations their training tools successes and their legacy Winston Churchill famously instructed the head of the Special Operations Executive to Set Europe ablaze Agents of both the British Special Operations Executive and the American Office of Strategic Services underwent rigorous training before making their way undetected into occupied Europe to do just that Working alone or in small cells often cooperating with local resistance groups agents undertook missions behind enemy lines involving sabotage subversion organizing resistance groups and intelligence gathering SOE's first notable success was the destruction of a power station in France stopping work at a vital U boat base Later operations included the assassination of Himmler's deputy Reinhard Heyrich and ending the Nazi atomic bomb program by destroying the heavy water plant at Vemork Norway OSS operatives established anti Nazi resistance groups across Europe and managed to smuggle operatives into Nazi Germany including running one of the war's most important spies German diplomat Fritz Kolbe All missions were incredibly

dangerous and many agents were captured tortured and ultimately killed the life expectancy of an SOE wireless operator in occupied France was just six weeks In this short history historian James Stejskal examines why these agencies were established the training regime and ingenious tools developed to enable agents to undertake their missions their operational successes and their legacy *How to Be a Spy*, 2004-04 During World War II training in the black arts of covert operation was vital preparation for the ungentlemanly warfare waged by the Special Operations Executive SOE against Hitler s Germany and Tojo s Japan Reproduced here is the most comprehensive training syllabus used at SOE s Special Training Schools STSs showing how agents learnt to wreak maximum destruction in occupied Europe and beyond The training took place in country houses and other secluded locations ranging from the Highlands of Scotland to Singapore and Canada An array of unconventional skills are covered from burglary close combat and silent killing through to propaganda surveillance and disguise giving insight into the workings of one of World War II s most intriguing organizations Denis Rigden s introduction sets the documents in its historical context and includes stories of how these lessons were put into practice on actual wartime missions **Secret Agent** David Stafford, 2000 In World War II the British created the Special Operations Executive to co ordinate subversion and sabotage against the enemy using disguise deception bribery explosives guerrilla warfare and assassination This book tells the story of the men and women through their personal reminiscences **SOE** Thomas F. Troy, 1984-06-30 **Special Operations Executive (SOE) Organisation: General (FO1093-183)**, 1944 A file of correspondence and memoranda covering the organisation of the Special Operations Executive SOE towards the end of the Second World War Subjects covered in this file include SOE s role as a military force its connections with various resistance groups and the potential political use that could be made of these SOE activities in liberated areas of Europe the organisation and transfer of SOE personnel and SOE s role during the armistice period *The Global Infrastructure of the Special Operations Executive* Derwin Gregory, 2021-12-23 During the Second World War the British government established the Special Operations Executive SOE for the purpose of coordinating all action by way of subversion and sabotage against the enemy overseas Although the overseas operations of this branch of the British Secret Services are relatively well known few studies have explored the backroom sections of this organisation This book draws together the infrastructure developed to support an agent s journey from recruitment to despatch to the field At the start of the Second World War there were few existing facilities established within the UK to support clandestine operations As the conflict progressed in parallel to learning the operational procedures of their trade SOE also had to rapidly expand their support infrastructure around the world The organisation could effectively support their agents only by establishing facilities dedicated to training research and development supply transportation communication and command and control By predominately focusing on the organisation s agent facing infrastructure this book provides a backdrop to the brave men and women who conducted operations abroad In addition it gives an overview of the facilities in which SOE s backroom staff lived and worked The book will be of interest

Special Operations Executive Operational Stores

Handbook Special Operations Executive, 1942-09-06 Under its nondescript plain cardboard covers the WWII era Special Operations Executive Operational Stores Handbook contained sabotage explosives and weapons instructions as well as a vocabulary of standard SOE operational stores complete with illustrations of the various devices and their use The handbook was divided into seven different colour coded sections each in a different language English French Dutch Norwegian Danish Polish and German It is the English section and accompanying illustrations reproduced here The instructions were simple and to the point and in SOE s style were suited for use by untrained or barely trained guerrillas but were also a valuable refresher for more experienced personnel The vocabulary of stores found in the contents section of the handbook provided standard equipment item numbers and designations as well as the designation of the standardised stores cell the items would be found in within the main stores containers This information greatly simplified the process of requesting stores from London to be parachuted into occupied territory Very hard to find this is as far as is known the first time this enigmatic little handbook has been printed as a paperback since the end of the Second World War The pamphlets in this series are The Art of Guerilla Warfare The Partisan Leader s Handbook How to use High Explosives Special Operations Executive Operational Stores Handbook

SOE in France, 1941-1945 Robert Bourne-Patterson, 2016-10-31 The confidential report on the Special Operations Executive s extensive activity in World War II France now available to the public In the archives of the Special Operations Executive lay a report compiled by a staff officer and former member of SOE s French Section Major Robert Bourne Patterson that until recently could not be published Because of the highly sensitive nature of the work undertaken by the SOE the paper was treated as confidential and its circulation was strictly limited to selected personnel Now at last it can be made available to the general public The time available to Bourne Patterson in compiling his report in 1946 was limited as the SOE was being wound up and many documents were being weeded from the files Nevertheless the paper he wrote gives a good picture of the work of the SOE in France the country where its operations were most extensive It contains an overview of operations in France by the Special Operations Executive during the Second World War with detailed records of individual circuits from their inception onward containing much information concerning individual agents and their contacts calendars of subversive activity against the Germans and the names and addresses of personnel connected with the circuits who had survived the war In writing his account Bourne Patterson drew heavily on personal interviews and wartime debriefings by agents

[The Making of a Secret Agent](#) Roderick Bailey, 2018-02 How do you set about training a secret agent What kind of people were recruited and trained to kill and sabotage so they could be dropped into Nazi occupied territory in World War Two And what happened to them after their active service was over The Special Operations Executive SOE was a clandestine Allied organisation set up by Winston Churchill in the Second World War to carry out sabotage and encourage resistance behind enemy lines in Europe the Balkans and the Far East Warfare of this type was unconventional

solitary and dangerous By the end of the war the SOE had recruited and trained more than 9 000 operatives men and women of multiple nationalities who were expected to endure for prolonged periods conditions of extreme physical and psychological difficulty and threat where the consequences of failure could be catastrophic Drawing on pioneering research sponsored by the Wellcome Trust among previously untapped sources ranging from declassified SOE files to psychiatric records and interviews with survivors *The Making of a Secret Agent* reveals how the SOE addressed the impact of the psychological stresses to which its operatives were exposed It unearths the processes by which candidates were selected for clandestine operations including the contributions of professional psychologists and psychiatrists and the application of pioneering methods of testing and assessment Through vivid personal testimony of the agents and those who worked with them this book illuminates the degree to which those processes were effective in identifying people capable of coping and working well in the field And it reveals for the first time the support forthcoming for SOE operatives who returned from their harrowing missions in enemy territory
