Book Review Come on a fascinating journey through the unusual terrain of epilepsy with the hard won poems of Broken Consciousness Read the first section Aura and anguish with the author as she feels the helpless and peculiar sensation of disappearing from herself Be frustrated right along with her through section two Seizure as she explores her various feelings about the grand mal seizures she refers to as monsters sharks and lightning Experience the loss of connection with her world the strangeness of how cognition is affected as well as the harrowing hopelessness through the dragging hours that follow a seizure And in the third section Recovery rejoice with her in her poignant expressions of thanks as she looks back on experiences she wishes had never compromised a single day of her life Learn about epilepsy and come away with a renewed sense that fortitude stamina and the strength of the human spirit can overcome hardship
