World Enough Rethinking The Future:

Peace and World Order Studies Barbara J. Wien, 1978-01-01 Margaret Mead Paul Shankman, 2021-07-16 This short volume is an ideal starting point for anyone wanting to learn about arguably the most famous anthropologist of the twentieth century. Since her death a steady drip of books about Mead, one of the most significant women in twentieth-century social science and American society, has appeared. Some are interesting, many quite a bit less so. While Shankman's biography makes use of them, it nevertheless stands out among the better ones not only for its well-informed and balanced view of Mead but also for its concision. *Times Literary Supplement* Tracing Mead's career as an ethnographer, as the early voice of public anthropology, and as a public figure, this elegantly written biography links the professional and personal sides of her career. The book looks at Mead's early career through the end of World War II when she produced her most important anthropological works, as well as her role as a public figure in the post-war period through the 1960s until her death in 1978. The criticisms of Mead are also discussed and analyzed. From the introduction: After her death she was awarded the Presidential Medal of Freedom by President Jimmy Carter. On the other side of the world, Mead's passing was remembered in a very different context. On the island of Manus, off the coast of New Guinea, the people of Pere village also mourned her death. Mead first studied the people of Pere in the late 1920s, returning in the 1950s with further visits thereafter. Over a span of five decades she touched their lives, and they touched hers. Such was Mead's stature that they commemorated her death with a ceremony befitting a great leader.

Margaret Mead Nancy C. Lutkehaus, 2018-06-26 Never doubt that a small group of thoughtful, committed citizens can change the world. Margaret Mead. This quotation, found on posters and bumper stickers, and adopted as the motto for hundreds of organizations worldwide, speaks to the global influence and legacy of the American anthropologist Margaret Mead (1901-78). In this insightful and revealing book, Nancy Lutkehaus explains how and why Mead became the best-known anthropologist and female public intellectual in twentieth-century America. Using photographs, films, television appearances, and materials from newspapers, magazines, and scholarly journals, Lutkehaus explores the ways in which Mead became an American cultural heroine. Identifying four key images associated with her: the New Woman, the Anthropologist, the Adventurer, the Scientist, and the Public Intellectual, Lutkehaus examines the various meanings that different segments of American society assigned to Mead throughout her lengthy career as a public figure. The author shows that Mead came to represent a new set of values and ideas about women, non-Western peoples' culture, and America's role in the twentieth century that have significantly transformed society and become generally accepted today. Lutkehaus also considers why there has been no other anthropologist since Mead to become as famous. Margaret Mead is an engaging look at how one woman's life and accomplishments resonated with the issues that shaped American society and changed her into a celebrity and cultural icon.
