Yesterdays Denver:

The New Empire of the Rockies Steven F. Mehls, 1984 This volume represents the fourth in a series of five Class 1 Overview histories prepared by the Colorado State Office Bureau of Land Management The purpose of these works is to develop a synthetic history of a given area in order to provide our managers and staff specialists with a baseline overview of the history of a district It must be noted that the major cities like Denver Colorado Springs Boulder Fort Collins and Greeley are only mentioned This is because there is no public land in these places and the Bureau s mandate is to manage the public lands not private estates Foreword

Colorado Yesterday and Today Grant Collier, Joseph Collier, 2005-06 When Joseph Collier left Scotland bound for Central City Colorado in 1871 it was unclear whether the young immigrant would make much of a name for himself However through hard work and perseverance Collier developed a reputation as one of the state s preeminent pioneer photographers Now over a century later Grant Collier has literally followed in the footsteps of his great great grandfather Grant has traveled across Colorado taking photographs from precisely the same spots where Joseph Collier captured his images These photographs are presented in the often imitated but never duplicated *Colorado Yesterday Today*

Twentieth-Century Sprawl Owen D. Gutfreund, 2004-05-01 Here Owen Gutfreund offers a fascinating look at how highways have dramatically transformed American communities nationwide aiding growth and development in unsettled areas and undermining existing urban centers Gutfreund uses a follow the money approach showing how government policies subsidized suburban development and fueled a chronic nationwide dependence on cars and roadbuilding with little regard for expense efficiency ecological damage or social equity The consequence was a combination of unstoppable suburban sprawl along with ballooning municipal debt burdens deteriorating center cities and profound changes in American society and culture Gutfreund tells the story via case studies of three communities Denver Colorado Middlebury Vermont and Smyrna Tennessee Different as these places are they all show the ways that government sponsored highway development radically transformed America s cities and towns Based on original research and vividly written *Twentieth Century Sprawl* brings to light the benefits and consequences of the spread of American highways and makes a major contribution to our understanding of issues that still plague our cities and suburbs today

The Urban West at the End of the Frontier

Lawrence H. Larsen, 2021-10-08 Historians have largely ignored the western city although a number of specialized studies have appeared in recent years this volume is the first to assess the importance of the urban frontier in broad fashion Lawrence H Larsen studies the process of urbanization as it occurred in twenty four major frontier towns Cities examined are Kansas City St Joseph Lincoln Omaha Atchison Lawrence Leavenworth Topeka Austin Dallas Galveston Houston San Antonio Denver Leadville Salt Lake City Virginia City Portland Los Angeles Oakland Sacramento San Francisco San Jose and Stockton Larsen bases his analysis of western cities and their problems on social statistics obtained from the 1880 United States Census This census is particularly important because it represents the first time that the federal government regarded the

United States as an urban nation The author is the first scholar to do a comprehensive investigation of this important source This volume gives an accurate portrayal of western urban life Here are promoters and urban planners crowding as many lots as possible into tracts in the middle of vast uninhabited valleys Here are streets clogged with filth because of inadequate sanitation systems people crowded together in packed quarters with only fledgling police and fire services Here too is the advance of nineteenth century technology gaslights telephones interurbans Most important this study dispels the misconceptions concerning the process of exploration settlement and growth of the urban west City building in the American West despite popular mythology was not a response to geographic or climatic conditions It was the extension of a process perfected earlier the promotion and building of sites no matter how undesirable into successful localities Uncontrolled capitalism led to disorderly development that reflected the abilities of individual entrepreneurs rather than most other factors The result was the establishment of a society that mirrored and made the same mistakes as those made earlier in the rest of the country
