## **York Minster:**

**'Our Magnificent Fabrick'** Sarah Brown,2003 For a period of almost five hundred years York Minster resembled a building site as different parts were added and altered before it finally became the building we see today This detailed study of the construction and development of the minster draws on architectural recording carried out on the building by the RCHME and English Heritage since the early 1970s as well as more recent discoveries and research particularly on the stained glass windows Each major building phase is discussed in turn the construction of the transept the Chapter House the nave Lady Chapel western choir and central tower The historical background to these phases reveals some of the financial political and religious events that hampered and or motivated the building phases and this and issues of imagery and patronage are all discussed *Records of Convocation: Introduction* Gerald Lewis Bray,2005 An introduction to the entire Convocation Records of the Church of England offering an invaluable survey of this important source The convocation records of the Churches of England and Ireland are the principal source of our information about the administration of those churches from middle ages until modern times They contain the minutes of clergy synods the legislation passed by them tax assessments imposed by the king on the clergy and accounts of the great debates about religious reformation they also include records of heresy trials in the fifteenth and sixteenth centuries many of them connected with the spread of Lollardy However they have never before been edited or published in full and their publication as a complete set of documents provides a valuable resource for scholarship The introductory volume presents both a chronological and a thematic survey of the English convocations from 1313 to the mid nineteenth century with a postscript bringing the account up to the present day The chronological survey gives a detailed account of each individual convocation the thematic survey explains the pattern of membership the procedures and functions of the convocations and their relationship to other legislative institutions both at home and abroad Detailed statistics in tabular form support the earlier sections and the volume also includes a complete concordance to David Wilkins *Concilia Magnae Britanniae et Hiberniae* for which this edition of the convocation records is a partial replacement
