# The 5x questions checklist for an effective hybrid workplace model

01

What do people want?

As mentioned above, a successful hybrid work strategy and hybrid workplace model can only work if it's designed for the people.

Before making any significant decisions or investments, it's important to understand the preferences, needs, and expectations of the employees you want to attract, retain, and engage. This includes understanding their work preferences, their needs, and their expectations. You should also understand the challenges they face in their roles.

You want to build a hybrid work model that will meet the needs of your people and address the most common challenges they face in their roles.

How do you know? Start by asking your people what they want. Conduct surveys, focus groups, and interviews to understand their needs and expectations. You should also understand the challenges they face in their roles.
