[Saxons vs. Vikings](#) Ed West,2017-08-08 A witty and concise look at the beginnings of English history when the nation consolidated after clashes between the Saxons and invading Vikings In 871 three of England s four kingdoms were overrun by Vikings the ruthless all conquering Scandinavian raiders who terrorized early medieval Europe With the Norsemen murdering one king with arrows and torturing another to death by ripping out his lungs the prospects that faced the kingdom of Wessex were bleak Worse still the Saxons were now led by a young man barely out of his teens who was more interested in God than fighting Yet within a decade Alfred the only English king known as the Great had driven the Vikings out of half of England and his children and grandchildren would unite the country a few years later This period popular with fans of television shows such as Vikings and The Last Kingdom saw the creation of England as a nation state with Alfred laying down the first national law code establishing an education system and building cities Saxons vs

Thinking Medieval M. Bull,2005-09-27 This book is aimed at students coming to the study of western European medieval history for the first time and also graduate students on interdisciplinary medieval studies programmes It examines the place of the Middle Ages in modern popular culture exploring the roots of the stereotypes that appear in films on television and in the press and asking why they remain so persistent The book also asks whether medieval is indeed a useful category in terms of historical periodization It investigates some of the particular challenges posed by medieval sources and the ways in which they have survived And it concludes with an exploration of the relevance of medieval history in today s world **Wales (newspaper edition) ebook** Terry Deary,2022-02-03 Readers can discover all the foul facts about WALES including why Druids split humans in half how the Normans outwitted the Welsh with a lump of ham and how an army of Welsh mums fought off the French once and for all These bestselling titles are sure to be a huge hit with yet another generation of Terry Deary fans **Anglo-Saxon England: Volume 30** Michael Lapidge,Malcolm Godden,Simon Keynes,2002-07-12 The pre eminence of Anglo Saxon England in its field can be seen as a result of its encouragement of interdisciplinary approaches to the study of all aspects of Anglo Saxon culture Thus this volume includes an important assessment of the correspondence of St Boniface in which it is shown that the unusually formulaic nature of Boniface s letters is best understood as a reflex of the saint s familiarity with vernacular composition A wide ranging historical contextualization of The Letter of Alexander to Aristotle illuminates the way English readers of the later tenth century may have defined themselves in contradistinction to the monstrous unknown and a fresh reading of the gendering of female portraiture in a famous illustrated manuscript of the Psychomachia of Prudentius CCCC 23 shows the independent ways in which Anglo Saxon illustrators were able to respond to their models The usual comprehensive bibliography of the previous year s publications rounds off the book and a full index of
