## **Social Class Language And Education:**

**Social Class Language and Education** Denis Lawton,2006-10-19 Titles in the Class Race and Social Structure set of the International Library of Sociology consider every problem of socio political importance that affected society in the years following the Second World War

**Social Class, Language and Communication** Walter Brandis,Dorothy Henderson,1970

**Education, Class Language and Ideology (RLE Edu L)** Noelle Bissret,2012-05-04 This book presents an analysis of the essentialist ideology which is inherent to class based societies The author argues that essentialist ideology is efficient through its unconscious component and is imposed on everyone It guides school selection and imposes on each class a language specific in its reference to concrete domination relations It even unbalances the scientific objectivity of researchers in the social sciences not only among those who abide by the theory of natural aptitudes but also among its sharpest critics such as Basil Bernstein Pierre Bourdieu and J C Passeron whose work is considered in this book

**Theoretical Studies Towards a Sociology of Language** Basil Bernstein,2005-11-23 The papers in this volume show the origin and development of Bernstein s theoretical studies into the relationships between social class patterns of language use and the primary socialization of the child Bernstein s hypothesis will require teachers to look afresh not only at their pupils language but at how they teach and how their pupils learn Douglas Barnes Times Educational Supplement His honesty is such that it illuminates several aspects of what it is to be a genius Josephine Klein British Journal of Educational Studies

*Language in Culture and Class* Anthony Davies Edwards,1976 The sociology of language is part of a recent convergence of interest in social linguistics This book provides some sociologically oriented guidance to an increasingly complex field of interdisciplinary activity Other introductions to the subject are available but they tend to have a linguistic emphasis The primary interest in this volume is what their use of language can tell us about people their social backgrounds loyalties and aspirations their perceptions of each other and of the situations in which they interact The main concepts and findings are introduced through a number of detailed examples of socially realistic language research These concepts are then applied to three problem areas the extent of social class differences in modes of communication the variety of perspectives on what their educational consequences might be and the special characteristics of classrooms as contexts for language use The whole sociolinguistic enterprise is too new to offer solutions in these problem areas But it can provide new insights into ways of speaking and their meaning to those who use them This book should therefore be of interest to at least three overlapping groups language specialists interested in a sociological as opposed to a linguistic view of their subject students of the social sciences who have come to see language as more than merely the medium through which ideas are expressed and interaction proceeds and educationists who are interested in what the sociology of language has to say about the large scale causes of educational failure and the small scale analysis of the daily realities of classroom communication Publisher *Education* Ronald King,1977

*Advances in the Sociology of Language: Selected studies and applications* Joshua A. Fishman,1971

**Class, Race and Social Structure** Dennis Lawton, 1998      **Talk for Teaching and Learning** Joan Tough, Schools Council (Great Britain). Communication Skills Project, 1979      **Social Class and Bilingual Education** Robert Louis Politzer, 1981      **The Australian Journal of Education** ,1971      **Foreign Language Education** Dale L. Lange, Charles J. James, 1972 This book reviews the record of the foreign language teaching profession over the past several years and examines the successes and determines the reasons for failures      **International Journal of the Sociology of Language** ,1974      *Language Study* Peter Symonds Doughty, Geoffrey Thornton, Anne Doughty, 1977      The Sociology of Language Thomas Luckmann, 1975      **Research in the Teaching of English** ,1977      *Educational Patterns and Cultural Configurations* Joan I.
