Artful Seduction Karl Posso, 2017-12-02 The controversial works of Brazilian authors Silviano Santiago 1936 and Caio Fernando Abreu 1948 96 offer distinctive but complementary explorations of male homosexual subjectivities formulated through displacement exile and the abject Posso examines the innovative ways in which these writers stage manage Western poststructuralist thought to critique heterosexist exclusion in Brazil and in globalized popular and folk culture and he explains how they draw on diverse cultural productions and art works to extend a general undermining of oppositional logic and psychoanalytic theory

Lusosex Susan Canty Quinlan, Fernando Arenas, Some of the most compelling theoretical debates in the humanities today center on representations of sexuality This volume is the first to focus on the topic in particular the connections between nationhood sex and gender in the Lusophone or Portuguese speaking world Written by prominent scholars in Brazilian Portuguese and Lusophone African literary and cultural studies the essays range across multiple discourses and cultural expressions historical periods and theoretical approaches to offer a uniquely comprehensive perspective on the issues of sex and sexuality in the literature and culture of the Portuguese speaking world that extends from Portugal to Brazil to Angola Cape Verde and Mozambique Through the critical lenses of gay and lesbian studies queer theory postcolonial studies feminist theory and postmodern theory the authors consider the work of such influential literary figures as Clarice Lispector and Silviano Santiago An important aspect of the volume is the publication of a newly discovered and explicitly homoerotic poem by Fernando Pessoa published here for the first time in the original Portuguese and in English translation Chapters take up questions of queer performativity and activism female subjectivity and erotic desire the sexual customs of indigenous versus European Brazilians and the impact of popular music as represented by Caetano Veloso and others on interpretations of gender and sexuality Challenging static notions of sexualities within the Portuguese speaking world these essays expand our understanding of the multiplicity of differences and marginalized subjectivities that fall under the intersections of sexuality gender and race

Latin American Writers on Gay and Lesbian Themes David William Foster, 1994-11-07 Gay and lesbian themes in Latin American literature have been largely ignored This reference fills this gap by providing more than a hundred alphabetically arranged entries for Latin American authors who have treated gay or lesbian material in their works Each entry explores the significance of gay and lesbian themes in a particular author's writings and closes with a bibliography of primary and secondary sources The figures included have a professed gay identity or have written on gay or lesbian themes in either a positive or negative way or have authored works in which a gay sensibility can be identified The volume pays particular attention to the difficulty of ascribing North American critical perspectives to Latin American authors and studies these authors within the larger context of Latin American culture The book includes entries for men and women and for authors from Latin American countries as well as Latino writers from the United States The entries are written by roughly 60 expert contributors from Latin America the U S and Europe
