Still Rebels, Still Yankees Donald Davidson, 1972-01-01 *Still Rebels, Still Yankees, and Other Essays* Donald Davidson, 1972-01-01 **Still Rebels, Still Yankees, and Other Essays. Wood Engravings** Donald Davidson, 1957 *Still Rebels, Still Yankees and Other Essays... Wood Engraving by Theresa Sherrer Davidson* Donald Davidson, 1957 *The Postsouthern Sense of Place in Contemporary Fiction* Martyn Bone, 2014-01-13 For generations southern novelists and critics have grappled with a concept that is widely seen as a trademark of their literature a strong attachment to geography or a sense of place In the 1930s the Agrarians accorded special meaning to rural life particularly the farm in their definitions of southern identity For them the South seemed an organic and rooted region in contrast to the North where real estate development and urban sprawl evoked a faceless raw capitalism By the end of the twentieth century however economic and social forces had converged to create a modernized South How have writers responded to this phenomenon Is there still a sense of place in the South or perhaps a distinctly postsouthern sense of place Martyn Bone innovatively draws upon postmodern thinking to consider the various perspectives that southern writers have brought to the concept of place and to look at its fate in a national and global context He begins with a revisionist assessment of the Agrarians who failed in their attempts to turn their proprietary ideal of the small farm into actual policy but whose broader rural aesthetic lived on in the work of neo Agrarian writers including William Faulkner and Eudora Welty By the 1950s adherence to this aesthetic was causing southern writers and critics to lose sight of the social reality of a changing South Bone turns to more recent works that do respond to the impact of capitalist spatial development on the South and on the nation generally including that self declared international city Atlanta Close readings of novels by Robert Penn Warren Walker Percy Richard Ford Anne Rivers Siddons Tom Wolfe and Toni Cade Bambara illuminate evolving ideas about capital land labor and class while introducing southern literary studies into wider debates around social cultural and literary geography Bone concludes his remarkably rich book by considering works of Harry Crews and Barbara Kingsolver that suggest the southern sense of place may be not only post Agrarian or postsouthern but also transnational **Elizabeth Spencer's Complicated Cartographies** C. Seltzer, 2009-07-20 This book subjects the works of Elizabeth Spencer critically acclaimed but canonically marginalized to a study that reveals their interaction with the southern canon as they question its boundaries and remap the long established landscapes of southern identity **Superfluous Southerners** John J. Langdale, III, 2012-11-01 In *Superfluous Southerners* John J. Langdale III tells the story of traditionalist conservatism and its boundaries in twentieth century America Because this time period encompasses both the rise of the modern conservative movement and the demise of southern regional distinctiveness it affords an ideal setting both for observing the potentiality of American conservatism and for understanding the fate of the traditionalist man of letters Langdale uses the intellectual and literary histories of John Crowe Ransom Donald Davidson and Allen Tate the three principal contributors to the Agrarian manifesto *I'll Take My Stand* and of their three most

remarkable intellectual descendants Cleanth Brooks Richard Weaver and Melvin Bradford to explore these issues Langdale begins his study with some observations on the nature of American exceptionalism and the intrinsic barriers which it presents to the traditionalist conservative imagination While works like Louis Menand's *The Metaphysical Club* have traced the origins of modern pragmatic liberalism during the late nineteenth century the nature of conservative thought in postbellum America remains less completely understood Accordingly Langdale considers the origins of the New Humanism movement at the turn of the twentieth century then turning to the manner in which midwesterners Irving Babbitt and Paul Elmer Moore stirred the imagination of the southern Agrarians during the 1920s After the publication of *I'll Take My Stand* in 1930 Agrarianism splintered into three distinct modes of traditionalist conservatism John Crowe Ransom sought refuge in literary criticism Donald Davidson in sectionalism and Allen Tate in an image of the religious wayfarer as a custodian of language Langdale traces the expansion of these modes of traditionalism by succeeding generations of southerners Following World War II Cleanth Brooks further refined the tradition of literary criticism while Richard Weaver elaborated the tradition of sectionalism However both Brooks and Weaver distinctively furthered Tate's notion that the integrity of language remained the fundamental concern of traditionalist conservatism Langdale concludes his study with a consideration of neoconservative opposition to M E Bradford's proposed 1980 nomination as head of the National Endowment for the Humanities and its significance for the southern man of letters in what was becoming postmodern and postsouthern America Though the post World War II ascendance of neoconservatism drastically altered American intellectual history the descendants of traditionalism remained largely superfluous to this purportedly conservative revival which had far more in common with pragmatic liberalism than with normative conservatism *Southern History Remixed* Michael T.

Bertrand, 2024-01-30 How popular music reveals deep histories of racial tensions in southern culture *Southern History Remixed* spotlights the key role of popular music in the shaping of the United States South from the late nineteenth century to the era of rock n roll in the 1940s 50s and 60s While musical activities are often sidelined in historical narratives of the region Michael Bertrand shows that they can reveal much about social history and culture change as he connects the rise of rock n roll to the civil rights movement for racial equality In this book Bertrand traces a long term culture war in which white southerners struggled over the region's cultural complexion with music serving as an engine that both sustained and challenged white supremacy He shows how rock n roll emerged as a working class genre with biracial sources that stoked white racial anxieties and engaged the region's color and culture lines This book discusses the conflict over southern identity that played out in responses to jazz barn dance radio Pentecostal and gospel music Black radio programming and rhythm and blues concluding with a close look at the popularity of Elvis Presley within a racially segregated society *Southern History Remixed* suggests that both Black and white southerners have used music as a tool to resist or negotiate a rigid regional hierarchy Urging readers and scholars to take the study of popular music seriously Bertrand argues that what occurs in the

music world affects and reflects what happens in politics and history A volume in the series Southern Dissent edited by Stanley Harrold and Randall M Miller **Yankee** ,1938 A.L.A. Owens,1884 *Book Review Digest* Leslie Dunmore-Leiber,1976 *Faulkner and the Southern Renaissance* Doreen Fowler,1982 What is the Southern Renaissance Who are its major figures Why did it happen What role did William Faulkner play in its advent These are some of the questions scholars attempted to answer at the 1981 Faulkner and Yoknapatawpha Conference The history of the Southern Renaissance has not yet been written and its relationship to its leading figure William Faulkner has still not been fully explored At the 1981 conference entitled Faulkner and the Southern Renaissance noted scholars of Southern literary history gathered to define and describe this startling literary phenomenon It was in the 1930s that the rest of the nation first noticed that something important was happening in the South A powerful and eloquent new voice was issuing from a seemingly improbable place the rural agrarian Southland In every literary genre an emphatically Southern accent was making itself known and today that accent is still being heard all over the world Faulkner was the first and unquestionably the greatest exponent of this new Southern literature but his voice was soon joined by a chorus of others John Crowe Ransom Allen Tate Robert Penn Warren Flannery O Connor Carson McCullers Katherine Anne Porter Eudora Welty James Dickey Richard Wright Walker Percy William Styron Reynolds Price Elizabeth Spencer and a host of others This literary flowering this amazing proliferation of Southern letters which began in the 1930s and continues to the present day is called the Southern Renaissance The papers contained in this volume take a major step toward explaining this extended period of extraordinary literary productivity Together these essays form a philosophical as well as critical inquiry into a cultural movement that resists simple or rigid categorizations Publisher **List of Books Indexed in Essay and General Literature Index** ,1972 America ,1934
