

# Textured Yarn

## What is textured yarn?

Textured yarn is one type of continuous filament yarn produced by processing through a texturing process. It has been processed to introduce durable crimps, coils, loops or other fine distortions along the lengths of the filaments. It has been made more extensible by filament distortion through physical, chemical or heat treatment or a combination of these. Texturing gives yarns a soft and woolly feel and increases the warmth and comfort of fabrics.
