Rowe, 2021-07-27 In this new edition of *Overcoming America* Stephen Rowe shows how the COVID 19 pandemic in tandem with Trumpism have brought basic dynamics of the American situation to high relief and hence provide opportunity to address them before it is too late The dynamics he identifies are those of moral disease and political paralysis as symptomatic of the fact that America herself has been overtaken by the modern values which she exported to the rest of the world He points to a way out of the current and potentially fatal malaise and violence join other societies which are also struggling to move beyond the modern and consciously reappropriate those elements of tradition which have to do with cultivation of the mature human being To avoid fundamentalism Rowe discusses how this reappropriation must be undertaken in dialogue with those who also have come to recognize the unsustainable quality of the modern life and who have been able to live beyond the nihilistic wish to tear it down This book supports the call for an emerging global ethic and spirituality providing resources of articulation and interpretation that allow for an ongoing dialogue between traditional and modern values both worthy and problematic in their own ways through which reliable policy and healthy living become possible *The American Tyler-keystone*, 1894
