The Irish Face:

The Irish Face Noel Kissane, 1986 **Marketing Modernisms** Kevin J. H. Dettmar, Stephen Myers Watt, 2025-10-01

Rarely have genres of literary expression been looked upon or read as commodities within a market system we tend to think of our literature as pure untainted by any interaction with the world of commerce Critical accounts of modernism are frequently theorized across the divide between the project itself and the larger marketplace the world of consumption Marketing Modernisms calls into question this curious separation and examines the material intellectual and ideological practices that comprise the notion of marketing Marketing Modernisms is concerned with Anglo American modernists and their potential readers in both the popular audience and the academy Examining the forms of promotion employed by book publishing houses in the editorial offices of literary magazines and in the minds of modern writers the essays bring to the fore little known connections between writers such as Ezra Pound T S Eliot James Joyce Virginia Woolf and Langston Hughes and the commercial marketplace they engaged The book s provocative themes include the strategies that modernists and their publishers employed to market their work to fashion themselves as artists or celebrities and to bridge the gap between an avant garde elite and the popular reader Other essays explore the difficulties confronted by women African American and gay and lesbian writers in gaining literary acceptance and achieving commercial representation while maintaining the gendered racial and sexual aspects of their lives

The Reading Figure in Irish Art in the Long Nineteenth Century

Tricia Cusack, 2022-02-01 The reading figure has been a recurrent theme in Western art but especially from the nineteenth century This book examines Irish portraits during the long nineteenth century in which people are shown reading or holding a book It explores different values ascribed to reading and contemporary constructions of the reader The selected pictures are by artists born trained or practising in Ireland Irish art is therefore used broadly to include work framed in some way by experience of Ireland and its history culture and politics This was a time of large social and cultural shifts for Ireland and a period when books and other reading including Irish novels were often published in London Many of the artists and sitters discussed were Anglo Irish Protestants Both Imperial and nationalist ideologues tended to devalue reading especially fiction as an unmanly occupation Nonetheless some men are depicted reading and failing to embody a manly attitude The spread of the novel and the introduction of silent reading allowed women of the middle and upper classes often Anglo Irish to engage with a range of imaginative reading materials secure from patriarchal surveillance Visual images of women as serious readers drew on and contributed to the emergence of the New Woman in Ireland

Performance, Modernity and the Plays of J. M. Synge Hélène Lecossois, 2020-11-26 Irish Revivalist playwright J M Synge is often regarded as a realist Yet what happens when his work is analysed through wider performance studies and situated alongside less familiar historical contexts By addressing this question H l ne Lecossois offers new and valuable perspectives on Synge s plays while at the same time engaging with the complexity of his treatment of a range of performance practices from keening at rural funerals

to the performances of native villagers in the entertainment section of International Exhibitions What emerges from her study is a dramatist acutely aware of the ability of theatre in performance to counteract relentless forward moving narratives of modernity Through detailed contextualized case studies the book simultaneously makes meaningful contributions to performance studies and opens up theoretical questions of performance relating to the status of the object on stage the body on stage and theatrical time
