**Miscellaneous Documents** United States. Congress. House, 1879 The Age of Projects Maximilian E. Novak, 2008-08-23 The Projecting Age was a term the English novelist Daniel Defoe used to describe the end of the seventeenth century This term could just as easily be used however to describe the period known as the Long Eighteenth Century 1660 1789 The Age of Projects uses the notion of a project as a key to understanding the massive social cultural political literary and scientific transitions that occurred in Europe during this time The contributors to this collection examine fraudulent grandiose altruistic and idealistic projects that reveal the period s radical breaks from the past and its preoccupation with the future Examining topics as diverse as Jonathan Swift s satire on the possibility of a computer to Gottfried Leibniz s effort to build one and Edmund Burke s prediction that the project of democratic governance would be taken over by greedy adventurers this volume provides significant insight into the period s ambitions for an improved future A well balanced collection by leading scholars from diverse disciplines The Age of Projects is a significant contribution to intellectual history literary history and the history of science *The Revolution in Time* Tony Claydon, 2020-01-30 The Revolution in Time explores the idea that people in Western Europe changed the way they thought about the concept of time over the early modern period by examining reactions to the 1688 1689 revolution in England The study examines how those who lived through the extraordinary collapse of James II s regime perceived this event as it unfolded and how they set it within their understanding of history It questions whether a new understanding of chronology one which allowed fundamental and human directed change had been widely adopted by this point in the past and whether this might have allowed witnesses of the revolution to see it as the start of a new era or as an opportunity to shape a novel modern future for England It argues that with important exceptions the people of the era rejected dynamic views of time to retain a static chronology that failed to fully conceptualise evolution in history Bewildered by the rapid events of the revolution itself people forced these into familiar scripts Interpreting 1688 1689 later they saw it as a reiteration of timeless principles of politics or as a stage in an eternal and pre determined struggle for true religion Only slowly did they see come to see it as part of an evolving and modernising process and then mainly in response to opponents of the revolution who had theorised change in order to oppose it The volume thus argues for a far more complex and ambiguous model of changes in chronological conception than many accounts have suggested and questions whether 1688 1689 could be the leap toward modernity that recent interpretations have argued **The Public statutes at large of the United States of America** ,1846 **Justice of the Peace and Local Government Review** ,1851 **New York Court of Appeals. **Remember, Remember the Fifth of November** James Sharpe,2006 Guy Fawkes is amongst the most celebrated figures in English history and Bonfire Night is a remarkably long lived and very English tradition But why is it that in a modern multicultural society people still turn out every November to commemorate a planned act of treason and terrorism which was defeated four hundred years ago Had the Gunpowder Plot succeeded and the Catholics managed to blow up the king the royal family and Parliament English history would have been shaped by a terrorist act of unprecedented proportions shattering in terms of both the damage inflicted and its propaganda value James Sharpe examines the fateful night of 5 November 1605 and the tangled web of religion and politics which gave rise to the plot He uncovers how celebration of the event and of Guy Fawkes the one gunpowder plotter everyone remembers has changed over the centuries Today although most of the religious connotations have long been ignored the bonfires remain The festival created in 1605 by the state and church to commemorate a failed act of Catholic terrorism now provides an annual raison d tre for the firework industry and an annual source of concern for Britain s cat owners Every year the crowds gather the bonfires are lit and the firework displays dazzle again Interestingly however the tradition is fast changing and reverting to the pre Gunpowder Plot festival now much Americanised of Halloween
