**Ultimate Answers and the Civilization** JUNTIAN HE, 2023-12-12  
This book is about theories of ultimate answers and civilization related topics. The ultimate answers are about those big questions in human history such as the answer to the universe where we came from, who we are, and why. Therefore, this book is based on its fundamental theory to communicate with those philosophical questions in human history. In this way, it could reveal the ultimate answers clearly. It discusses all philosophical ultimate problems: ontology, monism, pluralism, idealism, materialism, skepticism, relativism, nihilism, God, free will, dialectic contradiction, mysticism, absoluteness, objectivity, cosmology, subjectivity, finitude, language, truth, and so forth. It is broad in its discussion but it answers all questions fundamentally. The latter two articles are more historical and ethical. They discuss these topics based on the fundamental theory. Ethical issues: gender, morality, religion, wealth, justice, choice, and its cost, diversity, and management, the government, and the rich and the poor, private ownership and public ownership, social competition, freedom, equality, class, power, order, and chaos, independence, consensus, fairness, totalitarianism, anarchism, the sin of ignorance, selfish and selfless, currency, feminism, and ideology. Historical issues: effort and accumulation, capital, and business, distribution, Utopia, survival, future, primitive nature, and ancient warfare, and gender, power. They show what we have to do after we have the ultimate answers. This book shows that we have come to a key point in history.
