ways in which they influenced their societies In Islamic Civilization in Thirty Lives the distinguished historian of Islam Chase F Robinson draws on the long tradition in Muslim scholarship of commemorating in writing the biographies of notable figures but he weaves these ambitious lives together to create a rich narrative of Islamic civilization from the Prophet Muhammad in the seventh century to the era of the world conquerer Timur and the Ottoman Sultan Mehmed II in the fifteenth Beginning in Islam s heartland Mecca and ranging from North Africa and Iberia in the west to Central and East Asia Robinson not only traces the rise and fall of Islamic states through the biographies of political and military leaders who worked to secure peace or expand their power but also discusses those who developed Islamic law scientific thought and literature What emerges is a fascinating portrait of rich and diverse Islamic societies Alongside the famous characters who colored this landscape including Muhammad s cousin Ali the Crusader era hero Saladin and the poet Rumi are less well known figures such as Ibn Fadlan whose travels in Eurasia brought fascinating first hand accounts of the Volga Vikings to the Abbasid Caliph the eleventh century Karima al Marwaziyya a woman scholar of Prophetic traditions and Abu al Qasim Ramisht a twelfth century merchant millionaire An illuminating read for anyone interested in learning more about this often misunderstood civilization this book creates a vivid picture of life in all arenas of the pre modern Muslim world Muslims History and Civilization Ehsanul Karim,2012-03-01 The Muslims History and Civilization provides modern perspective of the religion culture and history of the Islamic world at a time when that world is undergoing considerable change and is a focus of international study and debate Most perceptions of Islam have often tended to be dominated by selective focus on few parts of Islamic history by biased media interpretations of events Many people are unaware of the depth and variety of Islamic history and civilization and had no opportunity to have a look at the bigger picture with all parts of the puzzle before their eyes At the same time many who have had a formal training in Islamic studies have tended to concentrate on the traditional to the exclusion of modern overview The Muslims History and Civilization covers the full range of Islamic history and thought in historical depth but it also provides substantial coverage of contemporary trends across the Muslim world It doesn t speak only from the mouth of select few It presents views of all great thinkers historians scholars and writers irrespective of their religious affiliations With well over a thousand entries on Islamic theology history arts scientific achievements Muslim leaders law and institutions crusades Caliphate and coverage of Islam in various places around the world and short historical backgrounds of all Muslim countries the Muslims History and Civilization provides an extremely rich resource for students and researchers in religious studies and Middle Eastern studies This book underlines and deepens the Muslim identity amidst fast changing concepts and ideologies This book is a wide ranging and general introduction to Islamic civilization from its origins to the present day Writing in clear and non technical language Ehsanul Karim seek answers to broad and important questions It begins with the history of the Prophet Muhammad P and provides a compilation of all the contributions achievements and major events of every Muslim region that has made a significant impact on Muslim history and civilization continues with an

Lost Islamic History Firas Alkhateeb,2017-11-15 Islam has been one of the most powerful religious social and political forces in history Over the last 1400 years from origins in Arabia a succession of Muslim polities and later empires expanded to control territories and peoples that ultimately stretched from southern France to East Africa and South East Asia Yet many of the contributions of Muslim thinkers scientists and theologians not to mention rulers statesmen and soldiers have been occluded This book rescues from oblivion and neglect some of these personalities and institutions while offering the reader a new narrative of this lost Islamic history The Umayyads Abbasids and Ottomans feature in the story as do Muslim Spain the savannah kingdoms of West Africa and the Mughal Empire along with the later European colonization of Muslim lands and the development of modern nation states in the Muslim world Throughout the impact of Islamic belief on scientific advancement social structures and cultural development is given due prominence and the text is complemented by portraits of key personalities inventions and little known historical nuggets The history of Islam and of the world s Muslims brings together diverse peoples geographies and states all interwoven into one narrative that begins with Muhammad and continues to this day

The Rise and Fall of the Islamic Empires Iftexhar Mahmood, Ph.D.,2004-04 Islam the most misunderstood religion in the West also came under intense scrutiny after the incident of September 11 2001 In the West some people made genuine effort to understand this religion and its followers whereas there were people who put all their efforts to malign Islam and its founder The troubled and unstable politics of the Middle East along with the rise of Islamic fundamentalism mistakenly has created the impression that all Muslims are violent and fundamentalists While writing the history of Islam most of the Western writers tend to focus too much on the Ottoman history These writers ignore the great Muslim civilizations which existed in Spain North Africa Egypt Iran and India Today the Islamic civilization has declined but it has its socio political impact on the world and in order to understand the current political plight of the Islamic world its past also needs to be assessed in all regions of the world

Encyclopedia of Islamic Civilisation and Religion Ian Richard Netton,2008 *Books-In-Brief: Studies in Islamic Civilization* Ahmed Essa ,Othman Ali ,2012-01-01 Studies in Islamic Civilization draws upon the works of Western scholars to make the case that without the tremendous contribution of the Muslim world there would have been no Renaissance in Europe For almost a thousand years Islam was arguably one of the leading civilizations of the world spanning a geographic area greater than any other It eliminated social distinctions between classes and races made clear that people should enjoy the bounties of the earth provided they did not ignore morals and ethics and rescued knowledge that would have been lost if not forever then at least for centuries The genius of its scholars triggered the intellectual tradition of Europe and for over seven hundred years its language Arabic was the international language of science Strange then that its

legacy lies largely ignored and buried in time In the words of Aldous Huxley Great is truth but still greater from a practical point of view is silence about truth By simply not mentioning certain subjects propagandists have influenced opinion much more effectively than they could have by the most eloquent denunciations Studies in Islamic Civilization is a compelling attempt to redress this wrong and restore the historical truths of a golden age that ushered in the Islamic renaissance and as a by product that of the West
