Malayan Classicism Soon-Tzu Speechley,2023-11-30

Through a broad range of case studies spanning from imperial monuments to rural residences Malayan Classicism puts forward a fundamentally new understanding of classical architecture in the Asian colonial context Across Malaysia and Singapore thousands of historic buildings are richly ornamented with motifs drawn from Ancient Greece and Rome as plump volutes lush acanthus leaves and neat rows of dentils decorate mosques palaces government buildings and innumerable terraced shophouses These classical details jostle with ideas drawn from other architectural traditions from across Asia in a style that is unique to the region Presenting the first comprehensive account of what was prior to World War II Malaya s most widespread architectural style Malayan Classicism explores how the classical architecture of the British Empire was transmitted translated and transformed in the hands of local builders and architects Addressing a critical gap in the scholarship this book charts the metamorphosis of an

imperial language of power into a local vernacular style and provides a new way of reading classical architecture in a post colonial context that will be applicable throughout the Global South
