## Small Deaths:

Weekly Return of Births and Deaths in London, and in Other Great Towns, 1871      **Young People's Perspectives on End-of-Life** Sarah Coombs, 2017-07-18 This book challenges adult assumptions that young people do not and should not think about death The author uses everyday material objects in order to facilitate a range of conversations revealing lively engagement with the topic Cultural resources such as literature and film provide a rich variety of perspectives on and responses to death whilst equally providing an opportunity to challenge many of these representations as unreal and unauthentic The book contains personal narratives of loss and memories of loved ones presenting a variety of encounters with significant deaths the stories being told in an array of vibrant amusing and emotive ways Similarly death is explored from a variety of religious and scientific frameworks highlighting rich and changing perspectives Such shifting and exciting vistas are a largely undiscovered part of young people's lives and situate them in a landscape not often associated with childhood Young People's Perspectives on End of Life will be of interest to students and scholars across a range of disciplines including Childhood and Youth Studies Death Studies Qualitative Research Methodologies Sociology Anthropology and Education      Psychology of Death and Dying John C. Morgan, Richard L. Morgan, 2006-04-01 Sooner or later each one of us faces death our own or others we care about And yet few take time beforehand to think about these endings and in the process may lose the wisdom of the ages that comes after facing death Perhaps this explains why when Plato was asked to summarize his philosophy he reportedly said Practice dying He understood that dying is what each one of us does throughout our lives whether it is leaving home the first time to go to school or departing from this planet when our lives end If we learn how to die to let go and get our egos out of the way we will have gained wisdom about how best to live This brief yet comprehensive book deals not only with the philosophical and psychological meaning of death but its practical implications for our lives Written by two brothers who have taught philosophy ethics psychology and religion at community colleges and four year private colleges this book can be used in many learning situations whether part of courses in philosophy ethics psychology or counseling or for short term workshops or continuing education courses for students in human services health care social work or any of the helping professions      *Weekly return of births and deaths (infectious diseases, weather) in London (and other great towns)*. Registrar-general, 1871      *Quarterly Return of Marriages, Births and Deaths Registered in the Divisions, Countries, Districts of England and Wales*,      **Weekly Return of Births and Deaths in London and in Twenty Other Large Towns of the United Kingdom** Registrar General, 1872      Annual Report of the Registrar-General of Births, Deaths, and Marriages in England, 1874      **Detailed Annual Report of the Registrar-General of Births, Deaths and Marriages in Scotland**, 1898      **weekly returns of birth and deaths in dublin including its suburban districts and in fifteen of the principal urban sanitary districts in ireland**, 1882      **The Undead Child in Popular Culture** Craig Martin, Debbie Olson, 2024-08-07 In this study of representations of children and childhood a global

team of authors explores the theme of undeadness as it applies to cultural constructions of the child Moving beyond conventional depictions of the undead in popular culture as living dead monsters of horror and mad science that transgress the borders between life and death rejuvenation and decay the authors present undeadness as a broader concept that explores how people objects customs and ideas deemed lost or consigned to the past might endure in the present The chapters examine nostalgic texts that explore past incarnations of childhood mementos of childhood zombie children spectral children images and artefacts of deceased children as well as states of arrested development and the inability or refusal to embrace adulthood Expanding undeadness beyond the realm of horror and extending its meaning conceptually while acknowledging its roots in the genre the book explores attempts at countering the transitory nature of childhoods This unique and insightful volume will interest scholars and students working on popular culture and cultural studies media studies film and television studies childhood studies gender studies and philosophy

*The Medical and Surgical History of the War of the Rebellion (1861-65)*, 1888      **Annual Report of the Commissioner of the Michigan Department of Health** Michigan.
