mountain top and sit on its nest There the eagle knocks its beak against a rock until it plucks it out Then the eagle will wait for the new beak to grow back after which it will pluck out its talons When its talons grow back the eagle starts plucking its old aged feathers And after this the eagle takes its famous flight of rebirth and LIVES for 30 more years Why is Change needed In order to survive and live We too have to start the change process We sometimes need to get rid of the unpleasant old memories negative habits and our fixed mindset Only when freed from the past burdens can we take advantage of the present If an eagle can make a life saving and life changing decision at the age of 40 why can t we In order to take on a new journey ahead let go of your negative old limiting beliefs Open up your mind and let yourself fly high like an eagle When it rains all birds occupy shelter But the EAGLE avoids the rain by flying above the clouds The problem is common to all but the attitude to solve it makes the difference Don t be afraid of change Accept it gracefully My questions to you is this Do you want to fly with the eagles or scratch with the turkeys Over to you
